T. BUTLER,
Secy. to the Govt. of Bengal.

General Conditions.

1. The revenue administration of the Tribeni Canal is vested in the Superintending Engineer of the Gandak Circle. The Divisional Canal Officer is responsible for maintaining the canal in an efficient condition, for the distribution of water to the lessees, and for the closing of the outlets in rotation when required; he is further responsible for the assessment of water rates.

2. The Collector of the district is responsible for the collection of water rates.

3. Except as provided in the Act and in these rules, no appeal shall lie from an order passed by a Canal Officer, but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any order passed by him in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

4. In appeals to the Collector under section 91 of the Act other than those especially provided for in rule 14 the Collector may require the Superintending Engineer to state his opinion in writing, which opinion shall form part of the record of the proceedings of the case.

On Applications.

5. Any person who requires a lease for water may apply to—

(*a*) the Sectional Officer, or
(*b*) the Subdivisional Canal Officer.

These preliminary applications must be made in writing and may be on plain paper. The person receiving them shall enter on the back any further date required.

On Leases and Permits.

6. Leases for the supply of water for any crop may be granted, on application, by the Subdivisional Canal Officer.

7. When a lease is granted, an agreement shall be taken in forms given in Appendices I, III and IV, and a "permit" shall be given to the lessee or lessees in forms given in Appendices II and V.

On Water Rates.

8. The following rates will be charged for water supplied, whether taken by lift or flow:—

		Rs.	A.
I.	For leases for *kharif* crops, 1st June to 15th November ...	2	0
II.	For leases for *rabi* crops, 1st November to end of February ...	1	4
III.	For each watering supplied between 1st March and 1st June...	0	12

On Demand Statements.

9. The statement of the amounts due for the water rates leviable under these rules shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall, from time to time, be sanctioned by the Lieutenant-Governor. A *parcha* showing the area and amount assessed against each cultivator shall be sent to him through the cultivator's representative before the demand statement is sent to the Collector for realization. Persons charged under rule 21 shall be served as soon as the charge is made, by post or otherwise, with a statement showing the amounts charged.

10. The rates of water supplied on *kharif* leases shall be payable in two equal instalments falling due respectively on the 1st January and 1st February following, but all sums of Rs. 10 and under shall become due on the 1st January and be payable in one instalment.

The rates for water supplied on *rabi* leases shall fall due on the 1st April following.

The rates for water supplied between 1st March and 1st June shall fall due on the 1st July following.

11. Water rates imposed under rule 8 shall fall due as soon as the assessment is made and shall be realised at once.

12. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but the period shall be extended where reasonable cause for delay can be established.

On Remissions.

13. Remission of water rates, either in whole or in part, shall be granted as follows:—

(*i*) By the Divisional Canal Officer for errors in assessment or rates.

(*ii*) By the Divisional Canal Officer for injury to a crop on a leased area caused by a deficiency in the supply of water.

In the latter case a written application must be made at least 20 days before the crop is cut.

14. Remissions on other grounds than the above require the sanction of Superintending Canal Officer.

15. In cases where sums due on account of water rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is not realisable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

On Cultivators' Representatives.

16. In all applications and permits the names of one or more persons shall be entered as *lambardar*, who will be responsible for decharging the duties mentioned below:—

(*i*) Obtaining signatures to applications and certifying to the correctness of the name.

(*ii*) Attending and giving assistance in measuring land irrigated, or proposed to be irrigated.

(*iii*) Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area, or any channel, is complete.

(*iv*) Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

(*v*) Being present when complaints are investigated by a Canal Officer, or subordinate, and giving information required in connection with the same.

(*vi*) Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

(*vii*) Reporting before the 15th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season so that these cases may be investigated before water rates are demanded.

(*viii*) Assisting the Collector by pointing out the residences of the persons assessed and identifying them.

17. The remuneration for performing the duties mentioned in the rule immediately preceding shall be two per cent. on the assessment (excluding fractions of a rupee) which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

18. The *lambardar* will be appointed by the Subdivisional Officer in consultation with the applicants for the lease, and must be a substantial person having a beneficial interest in part of the land to be irrigated. There is no objection to different *lambardars* being appointed to represent sections of the applicants or to two or more persons being jointly

appointed as *lambardars* on behalf of the whole of the applicants. In case the Subdivisional Canal Officer cannot agree with the applicants in the appointment of *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

19. The Divisional Canal Officer may, for reasons which appear to him to be sufficient and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

20. The fees to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer may retrench the whole or any part of the fees payable for reasons to be recorded in writing.

On Unauthorised Irrigation.

21. For the unauthorised use of canal water a rate of Rs. 5 per acre shall be charged; this rate may, however, be reduced at the discretion of the Divisional Canal Officer.

22. When it comes to the knowledge of the Subdivisional Canal Officer that canal water has been taken in an unauthorised manner, he shall hold a local investigation, and, if he considers that the land deriving benefit is liable to assessment, he shall serve a notice on the persons concerned, fixing a date for hearing objections. Any objections made shall be taken down and the whole record forwarded to the Divisional Canal Officer for disposal.

23. The Divisional Canal Officer after hearing any objection that may be raised shall, if he is of opinion that the land should be assessed, fix the rates allowed under rule 21 and return the record to the Subdivisional Canal Officer who shall then complete the assessment. Water rates shall not be charged where the unauthorised irrigation has occurred through the act, neglect or default of a Canal Officer or subordinate.

24 Applications for leases may be subsequently received from villages in which unauthorised irrigation has occurred, and these villages may be granted leases; in such cases the persons assessed under rule 21 shall also pay the water rates due in respect of the lease subsequently granted, provided that the total of these two rates shall not exceed the maximum rate chargeable under rule 2!. In such cases of double assessment the Divisional Canal Officer may remit, in whole or in part, the rates assessed under rule 21.

On Penalties and Cancelling of Leases.

25. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Divisional Canal Officer to cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realising water rates until all the arrears of water rates due are paid up; and also, if specially so ordered, until half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

Miscellaneous.

26. No person shall, without the written permission of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass along or across any of the works channels or banks of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords and ferries and their approaches as have been provided for the purpose. Any person who after due warning breaks this rule may be proceeded against under section 93, caluse (9) of the Bengal Irrigation Act III of 1876.

27. Unless specially exempted by the Lieutenant-Governor from the operations of these rules, no officer employed on the canal shall have any interest in the distribution of water from it, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

28. Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, to the Superintending Canal Officer.

29. No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorised to sign a permit, has been signed and issued.

PROCLAMATION OF SALE.

(*Section 287 of the Code of Civil Procedure.*)

DISTRICT HOOGHLY.

In the Court of the Certificate Officer, Hooghly Collectorate at Chinsura.

EXECUTION CASE No. 255 OF 1902-03.

Secretary of State for India, decree-holder, against Quazi Bashir-ar-Rahman, of Govindapur, a pati of Furfura, thana Krishnanagar, judgment-debtor.

NOTICE is hereby given that, under section 284 of the Code of Civil Procedure, an order has been passed by this Court for the sale of the attached property mentioned in the annexed Schedule, in satisfaction of the claim of Rajapur Drainage, cost due to the decree-holder in the suit mentioned in the margin, amounting with costs and interest up to date of sale to the sum of Rs. 20,903-2-4 (Rupees twenty thousand, nine hundred and three, annas two and pies four only).

Suit No. 255 of 1902-03 decided by the Certificate Officer of Hooghly in which the Secretary of State for India was plaintiff, and Quazi Bashir-ar-Rahman was defendant.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the sale Schedule. The sale will be of the property of the judgment-debtors above named, as mentioned in the Schedule below; and the liabilities and claims attaching to the said property, so far as they have been ascertained, are those specified in the Schedule against each lot.

In the absence of any order of postponement, the sale will be held by the Certificate Officer at the monthly sale commencing at 12 o'clock on the 23rd September 1909 at Chinsura Court. In the event, however, of the debt above specified and of the costs of the sale being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorized agent. No bid by, or on behalf of, the judgment-creditors abovementioned, however, will be accepted; nor will any sale to them be valid without the express permission of the Court previously given. The following are the further

Conditions of sale.

1. The particulars specified in the Schedule below have been stated to the best of the information of the Court, but the Court will not be answerable for any error, mis-statement or omission in this proclamation.

2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.

3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the Court or officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.

4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it, subject always to the provisions of section 291 of the Code of Civil Procedure.

5. In the case of moveable property, the price of each lot shall be paid for at the time of sale or as soon after as the officer holding the sale directs, and in default of payment the property shall forthwith be again put up and sold.

6. In the case of immoveable property, the person declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and sold.

7. The full amount of the purchase-money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.

8. In default of payment of the balance of purchase-money within the period allowed, the property shall be re-sold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, shall be forfeited to Government, and the defaulting purchaser shall forfeit all claim to the property, or to any part of the sum for which it may be subsequently sold.

Given under my hand and the seal of the Court, this 4th day of September 1909.

THE SCHEDULE.

(See sections 6 and 15.)

Land bounded—

on the north side by the premises No. 2, Sudder Street, and by Sudder Street;

on the west side by Chowringhee Road and by the premises No. 29, Chowringhee Road (occupied by the Bengal United Service Club);

on the south side by the premises No. 29, Chowringhee Road, by Kyd Street, and by the premises No. 4, Chowringhee Lane; and

on the east side by the premises No. 15, Kyd Street, and the premises Nos. 4, 3 and 1, Chowringhee Lane;

together with all buildings, roads and tanks existing or erected thereon, and all easements appertaining thereto.

STATEMENT OF OBJECTS AND REASONS.

1. The principal object of this Bill is to alter the constitution of the Board of Trustees of the Indian Museum in order to assign to the chief executive officers of the Museum a position on the Trust. There are also various other amendments in the existing law as contained in the Indian Museum Acts, 1876 and 1887, which appear to be desirable, and in these circumstances it has been thought most convenient to repeal these two enactments and substitute a new Act consolidating their provisions with the necessary amendments. With this object the present Bill has been prepared.

2. The more important amendments of the existing law are explained in the subjoined *Notes on Clauses.*

The 4th September 1909. W. L. HARVEY.

Notes on Clauses.

Clause 2.—It is proposed, after due consideration of the interests affected, to reduce the number of Trustees, which was fixed by the Indian Museum Act, 1887, at 21, to 17. Of these six are to be appointed *ex officio*, five by virtue of their position as Superintendents of departments of the Museum. The sixth is the Accountant General of Bengal. The

remaining Trustees are to be nominated by the various bodies interested in the proper management of the Museum. It is further proposed [sub-clause (3)] that nominated Trustees shall hold office for a period of three years only, but that the nominating authority be given the option of extending the period.

Clause 3.—To lessen the possibility of the combined votes of the official members out-numbering those of the unofficial members, the quorum necessary for the transaction of business has been raised from three to six.

Clause 6.—The opportunity has been taken to define more accurately the position and powers of the Trustees in respect of all the property, whether moveable or immoveable, now held or hereafter to be acquired by them for the purposes of the Trust.

Clause 7.—In order to promote efficiency, it is intended that the officers in charge of certain sections of the Museum should have more voice than at present in the management of their own sections. This will be effected by means of bye-laws for the management of the Museum to be made by the Trustees with the previous sanction of the Governor General in Council.

Clause 9.—Power has been conferred on the Trustees to present duplicates to other Museums in British India as well as to exchange or sell them.

The Schedule.—A revised Schedule, specifying the lands and buildings of which the Trustees are now to have the exclusive possession, occupation and control for the purposes of their trust, has been substituted for the old one appended to the Indian Museum Act, 1887.

J. M. MACPHERSON,

Secretary to the Government of India.

FORWARDING AN INSTALLATION OF EXHIBITS.

Article 21.—All packages intended for the Exhibition must bear as a distinguishing mark the following inscription: **Exposición Internacional de Agricultura de 1910**—and under this—**Buenos Aires (Republica Argentina)**, and in addition on two sides of package, a mark showing to what *section* the exhibit belongs.

Such exhibits will be admitted free of Custom duties, but should they be sold or require to be removed from the Exhibition, the corresponding duties must be paid beforehand. Exhibits reshipped for abroad will not be required to pay duty. In all cases the exhibits will be subject to the regulations of the Custom House authorities.

Article 23.—Representatives in Buenos Aires, named by foreign exhibitors, and by those of the interior of the Republic, must attend to the despatch, transport and reception of the packages, and also to the verification of the contents.

Exhibitors not having a representative or agent in Buenos Aires can send their exhibits to the Show consigned to the Senor Gerente de la Sociedad Rural Argentina.

Article 24.—Samples of seeds and grain in general, flour, earths, fertilisers, etc., should be sent in quantities of not less than three kilogrammes of each class, and it is recommended that the samples of grain and flour be packed in tin or at least in small canvas bags made up in tin-lined boxes. Samples of plants, forage, ears and cobs, pods, etc, should be sent in sufficient quantity to allow of a due appreciation of the product.

Article 25.—Samples of timber should be sent in fair sized pieces, showing longitudinal and cut cross sections and, if possible, with bark in natural state.

In certain cases it would be well to send boards or planks at least of one metre in length showing part polished and part simply planed and smoothed.

In the case of private buildings, stands or fittings, exhibitors must provide their own jars, etc.

Article 33.—The management of the Exhibition will furnish upright and horizontal glass cases in the pavilions provided for the general show of agricultural products in their natural and manufactured state, not intended to be shown in special stands or fittings.

Article 34.—In the machinery pavilion the management will hand over the ground space granted to each exhibitor, who will have to construct at his own risk and expense the stands, foundations for engines, etc., that may be required.

Article 35.—Exhibitors of apparatus, machinery or implements, who wish to show a collection of these in special buildings or stands, *apart from the obligatory exhibition in the corresponding pavilions*, may construct same, at their own cost, on the sites provided by the Executive Committee, should there be space disposable, subject to the prior intervention of the General Commissioner of the agricultural division. For this purpose the exhibitors, in their application for space, must state in detail the number and class of the machines, implements, etc., they intend to show, and also the type and power of the engines they will set up for the production of motive power.

ADMISSION AND REMOVAL OF GENERAL EXHIBITS.

Article 36.—The Executive Committee having granted the space it may have resolved to concede, a printed form will be given to the exhibitor in which the grant of space will be confirmed.

Said form will have its corresponding counterfoil in the book kept for the purpose by the Management of the Exhibition. This form will contain, in addition to the number of the grant, the name of the exhibitor, the exhibits to be shown, where produced, the division, section and class to which they correspond.

Article 37.—On arrival at the Exhibition, the form, named in Article 36, must be presented; in default of same the exhibits will not be admitted. Should the form have been lost, the interested party should ask for a duplicate, at least 24 hours before sending in his exhibits.

Article 38.—The exhibits having been admitted, the exhibitor should apply to the respective Steward to be put in possession of the space allotted.

Article 39.—Machinery and other exhibits may be removed from the Exhibition after the withdrawal stamp shall have been placed on the necessary forms—checked and signed in conformity by the exhibitor or his representative.

Article 40.—The withdrawal forms will not be given until after the exhibitor or his representative shall have paid the amount he may be owing for any service or charge. With regard to exhibits on which duties have not been paid, these will not be allowed to be removed until the permit of the competent authorities shall have been presented.

Article 41.—No live-stock or other exhibit whatsoever will be allowed to be withdrawn until after the following dates.

Should there be any disconformity, the General Commissioner of Live-stock will reject the exhibits presented.

Article 45.—A special Committee named by the Executive will be encharged with the duty of rejecting or of withdrawing any animal that in its opinion is not worthy of being shown.

Article 46.—For the removal of live-stock, after the closure of their respective shows, the exhibitor or consignee will present a form signed by him, in which should be stated the number of the lot, species and number of animals to be withdrawn, name of purchaser and amount of sale: said form will be exchanged for a removal order, specifying the stock being withdrawn, which should be signed and delivered up in the act of retiring the animals.

The removal of the animals should be carried out by the owner or consignee, and the cattle and horses must be provided with headstalls and halters of any kind, but of sufficient strength.

CARETAKERS, FORAGE, ETC.

Article 47.—The exhibitors of live-stock must provide the necessary caretakers and shepherds, and also such articles as buckets, forks, curryoombs, etc., required for their use. The cost of feed will also be for their account. The care, cleansing, feed and risk of the animals, even in the case of their having been sold, will be for account of the exhibitors up to 22 days after opening of the corresponding section of the Show, if they should remain on the premises, and they must provide the necessary staff. From that date forward these charges will be for account of the purchaser.

If in the opinion of the General Commissioner of the Live-stock division the exhibitors do not provide a sufficient number of caretakers, they will be requested to increase same. In case of non-compliance with this disposition, the Executive Committee will take on the men required, for account of said exhibitors, at the rate of ten dollars national currency per day for each man.

The caretakers must wear the uniform which the Management of the Show will provide at the price of fifteen dollars national currency, except in the case of their having a special livery approved of by the General Commissioner of the Live-stock division.

Article 49.—Exhibitors who shall have made sales, private or at auction, should give notice, on the day of sale, to the Management, of the exhibits sold, specifying class, catalogue number, prize and names of purchaser and vendor, and also—in the case of live-stock—the species, breed and sex of same.

Article 50.—The public sales of breeding stock will begin, simultaneously, on the day named by the Executive Committee, with the sheep, horses and other animals exhibited; these sales having come to an end, the auctions will continue with the breeding cattle.

Article 61.—The Judges may, or may not, award the prizes named in the Schedule; in the case of no prize being awarded to any exhibit in a class, they will declare the fact and give in writing the reason for so acting; they may add to the prizes named in the Schedule honorary mentions, numbered in order of merit, but not exceeding five.

Article 62.—All disrespect shown towards any group of Judges or to any member of same will be considered a grave violation of the regulations, and the General Commissioner of the respective division shall insist on the withdrawal from the Exhibition of the exhibits belonging to the offender or offenders, with loss of their admission cards.

Should the offender be a member of the Argentine Rural Society, the Board of Directors of same may, by a vote of two-thirds of its members, remove his name from the list of members.

Article 63.—The Judges may not create any other classes beyond those enumerated in the Schedule, nor divide any of them; but in case of entries being received of exhibits, for competition, not included in any of the classes named in the Schedule, the Executive Committee may admit them, authorizing the Judges of the corresponding Section Class to award them the prizes they may merit.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE JUTE CROP, 1909.

[On an average of the five years ending 1907-08, the area under jute in the territory to which the Bengal forecast relates has represented 21·1 per cent. of the total area under jute in British India.]

Acreage.—The area under jute according to the final district returns now received amounts to 511,500 acres compared with 512,800 acres shown in the preliminary forecast. The reduction is chiefly due to a revision of figures by the District Officer of Darjeeling.

The acreage for each of the five years 1905 to 1909 is shown below :—

Year.	Acreage.
1905	569,300
1906	780,400
1907	931,200
1908	548,700
1909	511,500

The area under jute this year in the Cooch Behar State which is not included in the above figures is estimated at 20,000 acres, against 22,000 acres last year.

The decrease in the area sown with jute this year compared with the area sown in previous years is attributed largely to the fall in the price of jute.

2. *Weather conditions.*—In the winter months there was very little rain, so that in some districts ploughing and sowing were retarded. Since the end of April, however, the weather conditions have been on the whole favourable. The Kissengunj subdivision of the Purnea district suffered severely from floods in June, and the crop in Darjeeling, Cooch Behar, and the Sonthal Parganas also suffered from excessive rain. The July rainfall was short in all the important jute-growing districts of this Province, but in August considerable damage was done to the crop in the low-lying tracts of the districts of Burdwan, Hooghly and Howrah.

3. *Outturn.*—The most important jute-growing district in this Province is Purnea, and the District Officer estimates a crop 74 per cent. of the normal. Only two other districts have an area of over 50,000 acres under jute—Hooghly and the 24-Parganas, where the outturn is estimated at 78 per cent. and 100 per cent. respectively.

According to the District Officers' estimate the total outturn of the Province of Bengal, including Cooch Behar, comes to 78 per cent. of a normal yield, against 62 per cent.,

the estimate made by this Department last year. Since the district returns were received, the Director has caused special enquiries to be made, and these show that the outturn in some districts had been underestimated. After careful calculations based on these enquiries, the Director estimates a crop yielding 1,329,380 bales, or 84 per cent. of a normal crop.

From the reports of the District Officers, it appears there is little of last year's crop held over in the districts, except perhaps in Cooch Behar.

4. *Consolidated Forecast.*—The Director of Agriculture of Eastern Bengal and Assam estimates the area under jute in his Province to be 2,201,200 acres, and the outturn, 5,877,204 bales. The total outturn for the two Provinces is, therefore, 7,206,584 bales, or 88 per cent of the normal. A consolidated note is appended.

5. Statistics for Nepal, Upper India and Madras, not included in these figures, are given below:—

Nepal	... 81,800 bales.
Upper India *viâ* E. I. R.	... 6,100 „
Madras *viâ* B.-N. R. ...	... 900 „

From a note kindly furnished by the Bengal Chamber of Commerce, it appears that exports from 1st July 1908 to 30th June 1909 amounted to 4,630,611 bales, and that the quantity purchased during last year by local mills amounted to 3,649,845 bales; allowing as usual 500,000 for country consumption, the total comes to 8,780,456. The 1908 crop (including the above figures for Nepal, &c.) was estimated by the Departments at 6,399,600 bales. The large discrepancy between these figures is attributed partly to an underestimate of the surplus jute from the crop of 1907, and partly to the unexpected heaviness of the crop due to the late harvest. It was anticipated that a portion of the crop would be lost through an insufficiency of water for retting, but the rivers rose unexpectedly, and filled the khals after the figures for the forecast had been collected.

W. R. GOURLAY,

Director of Agriculture, Bengal.

CONSOLIDATED NOTE ON THE FINAL FORECASTS OF THE JUTE CROP, 1909, FOR BENGAL AND EASTERN BENGAL AND ASSAM.

Acreage.—The area under jute is now estimated at 2,732,700 acres—an increase of 4,600 acres over the figures in the Preliminary Forecast. This is mainly due to a revision of figures in Dacca and Faridpur.

The acreage for each of the five years 1905-09 including the figures for Cooch Behar is shown below:—

Year.	Acreage.	Year.	Acreage.
1905	3,128,300	1908	2,856,700
1906	3.482,900	1909	2,732,700
1907	3,974,300		

The decrease in the acreage this year compared with the previous year is largely attributed to unfavourable weather in many districts at the time of sowing and to the fall in price of jute.

Weather conditions.—Owing to the almost entire absence of rain in the cold weather the soil was deficient in moisture and unfit for ploughing and sowing of jute until late in April. Towards the end of April good rain fell and conditions improved. Since May the season

has been favourable, but heavy floods in June, July and August materially damaged the crop on low-lying tracts, particularly in the districts, of Dacca, Faridpur, Dinajpur, Rangpur, Bogra, and the Kissengunj subdivision of the district of Purnea. In some districts there was an apprehension of scarcity of water for retting, but recent enquiries show that the supply is sufficient.

Outturn.—Thirteen districts have each an area of over 50,000 acres under jute; the District Officers of Mymensingh, Tippera, Pabna and the 24-Parganas report a normal crop. In Jalpaiguri the District Officer reports the crop 90 per cent. of the normal, in Faridpur 87 per cent., in Hooghly 78 per cent., in Purnea 74 per cent., in Rangpur 73 per cent., in Dacca 66 per cent., in Dinajpur 65 per cent., in Rajshahi 61 per cent., and in Bogra 60 per cent.

According to the estimates of the District Officers the total outturn of the two Provinces will be 84 5 of a normal crop. Since the district returns were received both Directors have had special enquiries made and they are of opinion that some of the estimates are unduly pessimistic. After careful calculation on the basis of these inquiries the Directors estimate a crop yielding 7,206,584, or 88 per cent. of a normal crop.

From the reports of District Officers it appears that very little of last year's jute crop remains in the districts, except perhaps in Cooch Behar.

Statistics for Nepal, Upper India and Madras, not included in these figures, are given below:—

Nepal	...	81,800 bales.
Upper India *viâ* E. I. R.	...	6,100 „
Madras *viâ* B.-N. R.	...	900 „

From a note kindly furnished by the Bengal Chamber of Commerce it appears that exports from 1st July 1908 to 30th June 1909 amounted to 4,630,611 bales, and the quantity purchased during last year by local mills amounted to 3,649,845 bales; allowing as usual 500,000 for country consumption, the total comes to 8,780,456. The 1908 crop (including the above figures for Nepal, etc.) was estimated by the Department at 6,399,600 bales. The large discrepancy between these figures is attributed partly to an underestimate of the surplus jute from the crop of 1907 and partly by the unexpected heaviness of the crop due to the late harvest. It was anticipated that a portion of the crop would be lost through an insufficiency of water for retting, but rivers rose unexpectedly and filled the khals after the figures for the forecast had been collected.

The general prospects of the crop were good. The recent heavy rainfall and floods have done considerable damage to the crop and the outturn is therefore below the normal. The increase in the area sown is due to favourable weather at the sowing season. But for the abnormal rainfall and the floods at the end of August, the crop would have been a bumper one.

The weather conditions were fair and the general prospect of the crop is fair. The rainfall was favourable at the time of sowing, but heavy rain afterwards hampered the growth of the plants. In Ghatal, the recent floods have caused damage to the standing crops and the actual outturn is likely to prove much less than what is now estimated. The increase in area has taken place in Contai owing to timely rainfall at the sowing season.

The general prospect of the crop in the Sadar subdivision is reported to be good, while at Uluberia it is fair. The fall in the price of jute induced cultivators to sow paddy and this accounts for the decrease in the area sown this year. The outturn of the crop is better than that of last year, as the subsequent rainfall was well distributed.

The increase in the area sown is due to seasonable weather and good rainfall. A larger outturn is expected owing to favourable weather conditions.	

PRESIDENCY.	Nadia ...	1,787,520	1,043,900	43,900	36,100	46	77	Little ...	Not cadastrally surveyed.			July ...	The weather was generally favourable, but want of sufficient rain in July and excessive rain in August affected the crop injuriously. Insect-pests also did some damage in Ranaghat and Meherpur. The general prospect of the crop is fair. The decrease in the area sown is due to the prevailing low prices of jute and high prices of paddy. The increase in the estimated outturn is due to more favourable weather conditions than in the previous year.

The decrease in the area sown is due to a fall in the price of jute and a rise in that of paddy. The better outturn is due to more favourable weather.

The decrease in the area sown this year is due to the fall in the price of jute and to the increase in that of paddy. Jute cultivation has consequently been neglected. The outturn of the crop is expected to be better in comparison with that of last year. The outturn is estimated to be a little below the normal owing to the slight damage caused by excessive rain in some parts of the district, especially in the Sadar subdivision.

The cultivation of jute is decreasing owing to the bad prices obtained. There is little jute grown for the outside market.	
BHAGALPUR.	Bhagalpur ...	2,704,640	2,673,300	6,700	6,600	50	100	Little ...	2,403,764	1902 to 1904.	350	Middle of August.	The weather conditions were favourable. The general condition of the crop is good. The area shown under the crop this year amounts to 6,600 acres, against 6,700 acres estimated to have been sown last year. This is due to revision of the acreage under the crop by the Subdivisional Officer of Banka on the basis of cadastral survey figures. The outturn of the crop this year is estimated at the normal and is double of that of last year owing to favourable weather and rainfall conditions.	
	Purnea ...	3,196,153	1,694,400	212,500	175,000	55	74	Very little. They keep jute sufficient for domestic consumption.	2,506,346	1901-02 and 1904-05.	98,903	August ...	The Subdivisional Officer of Kishanganj has estimated an outturn of 50 per cent as the crop was damaged to some extent by excessive rain and floods in his subdivision; elsewhere the prospect of the crop is good. Weather conditions were favourable in the Sadar and Araria subdivisions on the whole, where a 14-annas crop is expected. In both the Sadar and Kishanganj subdivisions, the area under this crop has decreased. Owing to the scarcity prevailing for the past three years, the cultivators sowed paddy on jute lands. The heavy fall in the price of jute for the past two years has discouraged the cultivators who thought that jute would be cheaper this year than last year.	
	Darjeeling ...	744,956	164,500	2,100	1,500	60	50	No jute in stock.	290,519	1897-98 and 19..1-02.	2,339	1st week of August.	The weather was not favourable. The general prospect of the crop is not satisfactory owing to untimely heavy rainfall. The outturn expected this year is less than that of last year. The area which is shown in Column 6 appears to have been actually sown this year. The figure reported in the preliminary forecast was not correct.	

	Sonthal Parganas.	3,500,800	1,645,300	1,200	600	58	52	Very little	3,272,009	1889 to 1903-04.	1,245	Middle of August.	The weather was unfavourable for cultivation. The prospects of the crop are not good. The area under cultivation diminished owing to want of rain at the time of sowing. Moreover, the low prices last year induced many cultivators to abandon jute for other crops. The decrease in the outturn is the result of damage caused to the crop by heavy rains.
ORISSA ...	Cuttack ...	2,338,560	1,223,500	14,200	9,900	58	79	A small quantity of jute remains out of the crop of 1908 on account of private consumption and the low price of jute.	2,068,437	1888-96 to 1905-07.	652	Ditto ...	The weather was favourable. The general prospects of the crop are fair. The cause of decrease in the area is due to the low price of jute as explained in the first forecast. One hundred acres have been sown after the submission of the first forecast.
	Balasore ...	1,334,368	932,200	3,600	3,900	75	95	Little ...	1,095,778	1891-92 to 1894-95.	138	Last week of Aug.	The weather conditions were favourable. The general prospects of the crop are good. The increase in the area and outturn this year is due to seasonable rain.

The general prospects of the crop are rather poor. The decrease in the area and outturn is due to the increase in the area under early rice, to unfavourable weather, and to the existence of a large stock out of the crop of 1908.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR AUGUST 1909.

Character of the Season.—The rainfall during August was general all over the Province. It was very heavy in South-West Bengal where the fall recorded ranged from 15·17 to 29·89 inches. The fall recorded in Jessore was 19 inches above the normal, and in Burdwan, Birbhum and Nadia it was 12 inches in excess. In Bihar and Chota Nagpur, it was also generally above the normal, Shahabad, Purnea and Palamau excepted. In these three districts and in Orissa, the rain was in defect. A table is appended showing the normal and actual rainfall during the month in each district.

II. Progress of agricultural operations.—Transplantation of winter rice was in progress in most districts, though want of rain was felt in the early part of the month in parts of Burdwan, Purnea, Angul and Hazaribagh. Harvesting of autumn crops and steeping and washing of jute were well in hand.

III. State of standing crops.—The condition of transplanted *aman* paddy and sugarcane was satisfactory. Damage was done by excessive rain and floods in the end of August in parts of Burdwan, Midnapore, Hooghly, Howrah and Murshidabad.

IV. Prospects and probable outturn of harvests.—Prospects of autumn crops are fair. Their outturn for the whole Province is estimated at 85 per cent. of the normal. Prospects of winter rice for the Province as a whole were not unfavourable.

V. Damage to crops.—Damage has been done to *aman* paddy by excessive rain and floods in Burdwan, Hooghly, Howrah and Murshidabad, and to autumn crops especially to maize in Patna, Shahabad, Saran, Champaran, Muzaffarpur, Monghyr and Bhagalpur. In Sambalpur, autumn paddy suffered from the attacks of insects as well as from want of moisture. Injury to jute by insects was reported from Nadia.

VI. Condition of agricultural stock.—The condition of cattle was on the whole fair. Rinderpest was reported from Sambalpur only. Reports of ordinary cattle-diseases were received from Burdwan, Bankura, Midnapore, Nadia, Murshidabad, Jessore, Angul, Puri, Ranchi and Palamau and from Bihar, Darbhanga and Monghyr excepted.

VII. Failure of pasturage and fodder.—No difficulty was experienced in the supply of fodder and water. It was sufficient throughout the Province.

VIII. Price of food-grains.—During the second fortnight of the month, the price of common rice rose in 4 and fell in 19 districts. The expectation of a good harvest has made prices easier. The prices of staple food-grains are lower than in the corresponding period of last year.

IX. Condition of labouring classes and the agricultural population.—The returns of the District Officers give indication of a satisfactory condition of the agricultural population. Relief operations were finally closed in all parts of Bengal.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

No. 841T.Medl.—The 25th September 1909.—It is hereby notified for general information that the Lieutenant-Governor is pleased to make the following modifications in the Rules for the management of Charitable Hospitals and Dispensaries in Bengal, published under Government Notification No. 2497Medl., dated the 31st December 1908, at pages 3—192, Part IB of the *Calcutta Gazette* of the 13th January 1909:—

1. Substitute the following rule for rule 28.

Subdivision for purposes of accounts of Local Funds Dispensaries.

"*Rule 28.*—Dispensaries in Class III are subdivided for purposes of account into two classes: Class IIIA—Dispensaries for which separate banking accounts are allowed to be opened in the treasury with the sanction of Government; and Class IIIB—Dispensaries for which separate accounts are not allowed at the treasury, but the funds of which are kept under the direct control of the local authority."

(*a*) CLASS IIIA.—DISPENSARIES.

Preparation of dispensary budgets.

(1) (*a*) The Managing Committee shall annually prepare a budget estimate of the probable income and expenditure of the dispensary for the ensuing financial year arranged according to the headings given in Statement II of the Annual Return Form No. XXV, and submit it to the Commissioner of the Division through the local authority on a date fixed by that authority. The local authority will check the figures against the heads 'Local Fund Contribution' or Municipal Fund Contributions, as the case may be, and 'Interest on Investments' and, if the figures are correct, forward the estimate to the Commissioner. On receipt of the Commissioner's orders approving the estimates, the local authority will incorporate the figures in its own budget estimate under appropriate headings. In the case of Municipalities the fixed annual contribution should be shown against the head 'Charges to be met from the General Fund and Endowments,' and the total estimated expenditure less that amount under the head 'Charges to be met from Special Receipts.'

(*b*) No expenditure under any head in excess of the amount sanctioned by the Commissioner of the Division in the budget estimates shall be incurred by the Dispensary Committee. If it is found necessary to meet excess expenditure under any one head either from anticipated savings under another, or from increased receipts from subscriptions or other special sources or the accumulated balance, an application for re-appropriation or an additional budget grant, as the case may be, with a clear explanation of the necessity for additional expenditure shall be submitted to the Commissioner direct; but the expenditure proposed should not be incurred before receipt of the Commissioner's orders.

Method of keeping accounts where separate banking account is opened in treasury.

(2) All subscriptions and donations shall be collected by the Managing Committee, and shall be paid into the treasury for credit to the Dispensary Fund. The income from endowments and investments shall, however, be realised by the local authority, and shall be remitted by it to the treasury for credit to the Dispensary Fund, an advice being sent at the same time to the Managing Committee. If any cheques for remittance orders are received, they should be sent intact to the treasury for *per contra* credit to the Dispensary Fund.

(3) All claims should be discharged either by payments from the imprest placed by the Committee in the hands of the medical officer in charge, or by cheques drawn by the Secretary or the President upon the treasury in favour of the actual payees. The imprest in the hands of the medical officer shall not ordinarily exceed Rs. 50 in the case of sadar dispensaries, and Rs. 25 in the case of other dispensaries.

If it is necessary for the local authority to make a contribution to supplement the dispensary funds, such contribution should be paid in quarterly instalments on the first day of each quarter by cheques which should be made payable by transfer to the credit of the dispensary account in the treasury, failure to do which should be brought to the notice of the District Magistrate by the Managing Committee. These amounts will be credited in the cash-book of the Managing Committee as contribution from the local authority by *per contra* debit as remitted to the treasury.

(4) The Managing Committee shall keep a cash-book in Form No. XXX (Appendix C) in which shall be entered all receipts and payments with necessary details as soon as the transactions occur. The cheque on which the imprest in the hands of the Medical Officer is drawn, should be charged off as an advance, and the imprest should be recouped from time to time by presentations of bills supported by the payees' receipts to the Secretary. The amount of each recoupment should always exceed Rs. 10. The cash-book should be closed every month, and a memorandum recorded reconciling the balance with that shown in the pass-book. A copy of the monthly account signed by the President of the Committee shall be forwarded

to the office of the local authority before the 5th of the succeeding month for incorporation in their accounts. Care should be taken not to mix up final payments with advances which should be clearly shown as such. The payment vouchers should be carefully preserved for production at the time of audit.

The transactions of the Dispensary Fund with the treasury will be shown in a pass-book, which will be supplied gratis by the treasury. The pass-book shall be closed and balanced at the end of every month. It should be examined by the Secretary of the Committee every time that it is received back from the treasury, to see that all the transactions have been duly entered therein. At the close of every month the treasury officer will prepare a memorandum showing the opening balances monthly receipts and payments and the closing balances of the several dispensary funds banking with the treasury, and enter this memorandum in the pass-books of the local authority to which the dispensaries belong to enable it to verify the balances.

(5) Dispensary establishments paid from funds vested in the local authority should be sanctioned in the same way as other establishments under that authority, but temporary appointments or other special charges if paid out of subscriptions and donations may be created by the Managing Committee without such sanction, provided there is provision in the budget.

(6) The dispensary accounts will be annually audited by the Examiner of Local Accounts.

(b) CLASS IIIB.—DISPENSARIES.

Preparation of dispensary budgets.

(1) The Managing Committee shall annually prepare a budget estimate of the probable income and expenditure of the dispensary for the ensuing financial year arranged according to the headings given in Form XXV, and submit it to the local authority on a date fixed by that authority for the sanction of the Commissioner of the Division. No expenditure shall be incurred in excess of the amounts sanctioned by the Commissioner, unless his previous sanction has been obtained to either a re-appropriation of grants or an additional grant obtained through the local authority.

Method of keeping accounts where funds are under direct control of local authority.

(2) As regards these dispensaries, the interest on the investments will be accounted for by the local authority direct. But all donations and subscriptions will be collected by the Managing Committee and paid into the office of the local authority, and there accounted for in the usual way.

(3) All claims in respect of these institutions shall be either paid from the imprest in the hands of the medical officer in charge or discharged by the local authority concerned on bills duly passed by the Managing Committee by issue of cheques upon the treasury. The Medical Officer shall from time to time present bills in recoupment of his imprest supported by payees' receipts.

(4) The Managing Committee shall keep a monthly account in Form XXIX, showing all transactions of the dispensary, including the contributions payable by the local authority, and forward a copy of this account to the local authority at the end of every month for comparison with the accounts kept at the office of the local authority concerned."

2. Cancel Form XXVIII in Appendix C; and

Act III of 1884), the Lieutenant-Governor intends to make the following modifications in the rules issued under the said section of the Act for keeping the accounts of the Municipalities, and for the audit of such accounts which were published under Government Notification No. 5472M., dated the 13th December 1897, at pages 297—358, Part I-B of the *Calcutta Gazette* of the 15th idem:—

These rules will be taken into consideration with a view to their final adoption on the 1st November 1909, when any objection or suggestion which may be made by any person and received before that date will be considered.

(1) Substitute the following rules for Rules 104 and 104A (as amended by Notification No. 2018M., dated the 29th July 1903):—

"*Rule 104.*—All cash receipts of Municipal hospitals and dispensaries in Class III-B shall be deposited in the Treasury to the credit of the Municipal Fund, and all charges shall be drawn from that fund. But, for each institution vested in the Commissioners, a subsidiary balanced account shall be kept in Form XXIX (of the rules for the management of Charitable Hospitals and Dispensaries) in which shall be credited—(*a*) all endowments, funds, and contributions received by the Commissioners on its behalf; and (*b*) all sums allotted in the budget estimates for its establishment and maintenance which are chargeable to the general revenues of the Municipal Fund, and in which all expenditure incurred shall be charged. The balance of this account, which shall be struck at the close of each month, shall not be appropriated to any object other than the establishment and maintenance of the institution to which it belongs.

A copy of the monthly statement of accounts in Form XXV of the rules for the management of hospitals and dispensaries, which is prepared by the Managing Committee, shall be sent to the Municipal office for comparison with the balanced account kept by the Commissioners.

Rule 104A.—For hospitals and dispensaries in Class III-A, a separate banking account is allowed at the Treasury. All receipts of these institutions will be paid into the Treasury direct by the Managing Committee, and all payments on account of them will also be made by the Committee direct without the intervention of the Municipal office, either from the imprest in the hands of the Medical Officer, or by cheques drawn by the Secretary

or President upon the Treasury. The income from the endowments and investments will, however, be realised by the Municipality and remitted to the Treasury for credit to the account of the Dispensary Fund, an intimation being at the same time sent to the Managing Committee.

Before the 5th of the following month, the Managing Committee will furnish the Municipal office with an account showing all the receipts and charges of the Dispensary Fund, and a memorandum reconciling the closing balance of the account with that shown at credit of the fund in the pass-book. On receipt of this account, the transactions will be incorporated in the accounts of the Municipality under the proper heads. In incorporating the dispensary figures, the Accountant should charge off monthly the full proportionate amount of the Municipal contribution, including income from endowments, under the head 'Charges to be met from General Fund and Endowments,' and the balance only under the head 'Charges to be met from Special Receipts.' If in any month the dispensary expenditure falls short of the above monthly proportion, the whole of the expenditure should be debited as above, the difference being charged off when the expenditure is in excess in a subsequent month.

The credits shown in the accounts of the Committee on account of contributions paid by the Municipality should be taken under the head 'Advances,' to which the corresponding payments in the Municipal accounts should also be debited."

(2) Substitute the following under the head of Expenditure 'C (4)' in the Municipal Account Form No. 1—Budget Estimate:—

" *C(4)*.—Hospitals and Dispensaries*—

Charges to be met from General Fund and Endowments.
Charges to be met from Special Receipts."

WATER-RATE RULES FOR TRIBENI CANAL.

The 21st September 1909.

No. 12.—Notification.—With reference to notification No. 5, dated 31st March 1908, which was published in the *Calcutta Gazette* of the 1st April 1908 at page 788, Part I, and in exercise of the powers conferred on him by sections 78 and 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor of Bengal proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Tribeni Canal, with effect from the 1st April 1910.

T. BUTLER,
Secy. to the Govt. of Bengal.

General Conditions.

1. The revenue administration of the Tribeni Canal is vested in the Superintending Engineer of the Gandak Circle. The Divisional Canal Officer is responsible for maintaining the canal in an efficient condition, for the distribution of water to the lessees, and for the closing of the outlets in rotation when required; he is further responsible for the assessment of water rates.

2. The Collector of the district is responsible for the collection of water rates.

3. Except as provided in the Act and in these rules, no appeal shall lie from an order passed by a Canal Officer, but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any order passed by him in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

4. In appeals to the Collector under section 91 of the Act other than those especially provided for in rule 14 the Collector may require the Superintending Engineer to state his opinion in writing, which opinion shall form part of the record of the proceedings of the case.

On Applications.

5. Any person who requires a lease for water may apply to—

(*a*) the Sectional Officer, or
(*b*) the Subdivisional Canal Officer.

These preliminary applications must be made in writing and may be on plain paper. The person receiving them shall enter on the back any further data required.

On Leases and Permits.

6. Leases for the supply of water for any crop may be granted, on application, by the Subdivisional Canal Officer.

7. When a lease is granted, an agreement shall be taken in forms given in Appendices I, III and IV, and a "permit" shall be given to the lessee or lessees in forms given in Appendices II and V.

On Water Rates.

8. The following rates will be charged for water supplied, whether taken by lift or flow :—

		Rs.	A.
I.	For leases for *kharif* crops, 1st June to 15th November ...	2	0
II.	For leases for *rabi* crops, 1st November to end of February ...	1	4
III.	For each watering supplied between 1st March and 1st June...	0	12

On Demand Statements.

9. The statement of the amounts due for the water rates leviable under these rules shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall, from time to time, be sanctioned by the Lieutenant-Governor. A *parcha* showing the area and amount assessed against each cultivator shall be sent to him through the cultivator's representative before the demand statement is sent to the Collector for realization. Persons charged under rule 21 shall be served as soon as the charge is made, by post or otherwise, with a statement showing the amounts charged.

10. The rates of water supplied on *kharif* leases shall be payable in two equal instalments falling due respectively on the 1st January and 1st February following, but all sums of Rs. 10 and under shall become due on the 1st January and be payable in one instalment.

The rates for water supplied on *rabi* leases shall fall due on the 1st April following.

The rates for water supplied between 1st March and 1st June shall fall due on the 1st July following.

11. Water rates imposed under rule 8 shall fall due as soon as the assessment is made and shall be realised at once.

12. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but the period shall be extended where reasonable cause for delay can be established.

On Remissions.

13. Remission of water rates, either in whole or in part, shall be granted as follows:—

(i) By the Divisional Canal Officer for errors in assessment or rates.

(ii) By the Divisional Canal Officer for injury to a crop on a leased area caused by a deficiency in the supply of water.

In the latter case a written application must be made at least 20 days before the crop is cut.

14. Remissions on other grounds than the above require the sanction of Superintending Canal Officer.

15. In cases where sums due on account of water rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is not realisable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

On Cultivators' Representatives.

16. In all applications and permits the names of one or more persons shall be entered as *lambardar*, who will be responsible for discharging the duties mentioned below:—

(i) Obtaining signatures to applications and certifying to the correctness of the name.

(ii) Attending and giving assistance in measuring land irrigated, or proposed to be irrigated.

(iii) Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area, or any channel, is complete.

(iv) Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

(v) Being present when complaints are investigated by a Canal Officer, or subordinate, and giving information required in connection with the same.

(vi) Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

(vii) Reporting before the 15th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season so that these cases may be investigated before water rates are demanded.

(viii) Assisting the Collector by pointing out the residences of the persons assessed and identifying them.

17. The remuneration for performing the duties mentioned in the rule immediately preceding shall be two per cent. on the assessment (excluding fractions of a rupee) which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

18. The *lambardar* will be appointed by the Subdivisional Officer in consultation with the applicants for the lease, and must be a substantial person having a beneficial interest in part of the land to be irrigated. There is no objection to different *lambardars* being appointed to represent sections of the applicants or to two or more persons being jointly

appointed as *lambardars* on behalf of the whole of the applicants. In case the Subdivisional Canal Officer cannot agree with the applicants in the appointment of *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

19. The Divisional Canal Officer may, for reasons which appear to him to be sufficient and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

20. The fees to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer may retrench the whole or any part of the fees payable for reasons to be recorded in writing.

On Unauthorised Irrigation.

21. For the unauthorised use of canal water a rate of Rs. 5 per acre shall be charged; this rate may, however, be reduced at the discretion of the Divisional Canal Officer.

22. When it comes to the knowledge of the Subdivisional Canal Officer that canal water has been taken in an unauthorised manner, he shall hold a local investigation, and, if he considers that the land deriving benefit is liable to assessment, he shall serve a notice on the persons concerned, fixing a date for hearing objections. Any objections made shall be taken down and the whole record forwarded to the Divisional Canal Officer for disposal.

23. The Divisional Canal Officer after hearing any objection that may be raised shall, if he is of opinion that the land should be assessed, fix the rates allowed under rule 21 and return the record to the Subdivisional Canal Officer who shall then complete the assessment. Water rates shall not be charged where the unauthorised irrigation has occurred through the act, neglect or default of a Canal Officer or subordinate.

24 Applications for leases may be subsequently received from villages in which unauthorised irrigation has occurred, and these villages may be granted leases; in such cases the persons assessed under rule 21 shall also pay the water rates due in respect of the lease subsequently granted, provided that the total of these two rates shall not exceed the maximum rate chargeable under rule 21. In such cases of double assessment the Divisional Canal Officer may remit, in whole or in part, the rates assessed under rule 21.

On Penalties and Cancelling of Leases.

25. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Divisional Canal Officer to cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realising water rates until all the arrears of water rates due are paid up; and also, if specially so ordered, until half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

Miscellaneous.

26. No person shall, without the written permission of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass along or across any of the works channels or banks of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords and ferries and their approaches as have been provided for the purpose. Any person who after due warning breaks this rule may be proceeded against under section 93, caluse (9) of the Bengal Irrigation Act III of 1876.

27. Unless specially exempted by the Lieutenant-Governor from the operations of these rules, no officer employed on the canal shall have any interest in the distribution of water from it, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

28. Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, to the Superintending Canal Officer.

29. No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorised to sign a permit, has been signed and issued.

MARINE DEPARTMENT.

The 21st September 1909.

No. 82Marine.—In exercise of the powers conferred on him by section 6, sub-section (1), clause (*p*) of the Indian Ports Act, 1908 (XV of 1908), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to make the following rules in respect of "sleeping sickness" occurring on vessels arriving in the Port of Calcutta, or for the time being in that Port.

The notification of this Department No. 26Marine, dated the 13th April 1909, is hereby cancelled.

1. In these rules

(1) "Health Officer" means any person appointed by the Lieutenant-Governor, either by name or by virtue of his office, to be Health Officer of a port, and includes any person appointed by the Lieutenant-Governor, either by name or by virtue of his office, to perform any of the duties of a Health Officer of a port;

(2) "Master," when used with reference to a vessel, means any person (except a pilot or harbour master) having for the time being charge or control of the vessel;

(3) "Port Officer" includes any person acting under the authority of the Lieutenant-Governor in charge of port discipline;

(4) "Sleeping sickness" includes the stage of the disease known as trypanosomiasis.

2. The master of every vessel arriving at the Pilot Station at the Sandheads from a port beyond India shall

(*a*) if the vessel has on board any person suffering or suspected to be suffering from sleeping sickness, or

(*b*) if any case or suspected case of sleeping sickness has occurred, or if any person has died or is suspected to have died from sleeping sickness on board within the twelve days immediately preceding the arrival of the vessel,

report every such case or death to the pilot at the earliest opportunity, and shall also comply, on arrival at the quarantine mooring at Garden Reach, with such regulations as may be made by the Lieutenant-Governor, in regard to—

(i) stopping at a particular place,
(ii) refraining from communication with the shore, and
(iii) taking measures for giving effect to the present rules.

3. If the vessel be at anchor within port limits when such disease first breaks out or such death occurs, the Master shall promptly give information to the Port Officer.

4. The pilot on receiving the report mentioned in rule 2 shall promptly report, from the Sandheads, if possible, or on arrival at Saugor Island, to the Port Officer and to the Health Officer the circumstances of the case brought to his notice.

5. Whenever the Health Officer receives the notice referred to in rule 4, he shall without unnecessary delay proceed on board and examine the vessel, and the Master shall give him every facility for the examination of the passengers and crew. The inspection by the Health Officer will ordinarily take place between sunrise and sunset.

6. On the completion of the inspection prescribed by rule 5, such of the passengers and crew as are found to be free from sleeping sickness shall be allowed to land.

7. If a case of sleeping sickness occurs on any vessel after she has entered dock or has been moored at a wharf, the Master shall forthwith cause information thereof to be given to the Dock Master or Superintendent of the Wharf, who shall communicate the information to the Health Officer and to the Superintendent of Police, and shall be responsible that the sick person shall be isolated as much as possible, and that free communication with the wharf is stopped until the Health Officer has inspected the vessel.

8. The Health Officer shall remove to the Campbell Hospital every person found on board suffering from, or suspected to be suffering from, sleeping sickness, and every such person shall be detained for observation and treatment in the said hospital and shall be isolated in such a manner as will prevent, as far as possible, the communication of the disease to other persons by the agency of biting flies, and shall continue to be so detained and isolated until a medical officer authorised on this behalf by the Lieutenant-Governor certifies that he is not suffering from sleeping sickness or that having suffered from the disease he has been cured:

Provided that in the case of a European suffering or suspected to be suffering from sleeping sickness, arrangements shall be made for his isolation and treatment at the Presidency General Hospital, Calcutta.

9. The Health Officer shall inform the Health Officer of the Calcutta Corporation in every case in which a person suffering or suspected to be suffering from sleeping sickness is removed under his orders to either of the hospitals referred to in rule 8, and in cases in which the disease has not been definitely diagnosed at the time of removal, shall also report to the Health Officer of the Corporation whether the diagnosis is confirmed or not.

10. All persons removed to either of the hospitals referred to in rules 8 and 9 shall obey and conform to the rules, regulations and orders for the time being in force at such hospital.

No. 83Marine.—In accordance with rule 2 of the rules sanctioned in the notification of this Department, No. 82Marine, of this date, the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is pleased to make the following regulations to be observed by Masters of vessels in the Port of Calcutta having on board any person suffering or suspected to be suffering from "sleeping sickness":—

The notification of this Department, No. 27Marine, dated the 13th April 1909, is hereby cancelled.

1. If the number of deaths or cases of sleeping sickness does not exceed two, the vessel will not be prohibited from taking up the usual place of anchorage in the port, except that she may not enter the Docks without the written permission of the Port Health Officer and the passengers or crew not suspected of having sleeping sickness need not be detained on board pending the inspection of the Port Health Officer, but the Master of the vessel will be held responsible that no one of the passengers or crew having, or suspected of having, sleeping sickness is allowed to depart before inspection.

2. If the number of deaths within the previous twelve days has exceeded two, or the cases are, or have been during the previous twelve days, more numerous than two and when for other special reasons, further precautions may be deemed advisable, the Master shall hoist a signal which shall be during the day, flag L* of the commercial code at the main, and during the night two white lights one above the other and six feet apart at the fore. He shall not allow any of the passengers or crew to leave the vessel until the Port Health Officer has made his inspection.

* This is a square flag of yellow and black borne quarterly.

3. Nothing in these rules shall be deemed to prevent a vessel, whose master is unwilling to submit to the regulations, from proceeding to sea provided that there has been no communication between such vessel and the shore or with other vessels in the port.

4. If a death occurs on board a vessel after passing Saugor and the vessel is not reaching Calcutta the same day, the body shall, with the permission of the Magistrate of Diamond Harbour, be buried at that place; if the vessel is arriving at Calcutta the same day the body shall be kept on board until the Port Health Officer has made arrangements for burial or cremation on shore.

NOTIFICATION.

THE following Rule having been framed by the High Court of Judicature at Fort William in Bengal in the exercise of the power vested in it by the Statute 24 and 25 Victoria, Cap. 104, section 15, is published for general information.

HIGH COURT, CIVIL AND CRIMINAL,
The 19th September 1909.

By order of the High Court,
A. W. WATSON,
Offg. Registrar.

1. Cancel Rule $\frac{6}{3}$, Chapter IV, page $\frac{98}{104}$, of the High Court's General Rules and Circular Orders, Civil and Criminal, and *substitute* therefor the following :—

$\frac{6}{3}$. All applications for *information* or for *copies* of papers or documents, other than those on which expedition fees are paid, shall be made at a place and to the officer designated by the $\frac{\text{District Judge}}{\text{District Magistrate}}$ for that purpose between the hours of 11 and 1, or 6-30 and 8-30, as the case may be.

2. *Insert* the following as Rule $\frac{16A}{13A}$, $\frac{16B}{13B}$, $\frac{16C}{13C}$, $\frac{16D}{13D}$, and $\frac{16E}{13E}$ in the same Chapter, at page $\frac{101}{107}$ *ibid* :—

$\frac{16A}{13A}$. Each clerk through whose hands an application for copies passes shall put his initials and date of receipt and passing on by him on the back of the application.

These entries should be made one below the other (the first to be about two inches from the top and three inches from the left-hand side of the reverse of the application), and must be legibly written.

When a clerk receives and passes the application on the same date, that day's date and his initials will suffice. When, however, he retains the application over the day, he must enter both the dates of receipt and passing on, thus $\frac{18}{19}$-7.

$\frac{16B}{13B}$. When any information is given to the applicant in connection with extra Court-fees or extra folios for urgent copies, the fact should be briefly noted on the reverse of the application and signed and dated by the applicant and the clerk giving him the information.

$\frac{16C}{13C}$. When the applicant complies with rule $\frac{16B}{13B}$, a note should be made on the reverse of the application showing the date and number of the extra folios and the date and number of the value of the extra Court-fees filed. This note shall be signed both by the applicant and by the comparing clerk who receives them.

$\frac{16D}{13D}$. Similar procedure should be followed with regard to the number and amount of Court-fee stamps for certified copies.

$\frac{16E}{13E}$. When the copy is delivered to the applicant his signature therefor and the date should be taken on the reverse of the application.

3. *Cancel* Rule $\frac{3}{3}$, Chapter $\frac{XII}{X}$, page $\frac{205}{229}$ *ibid*, and *substitute* therefor the following :—

$\frac{3}{3}$. In future no distinction shall be made between English and vernacular copyists, and no person shall be appointed a copyist unless he can copy both English and the Vernacular efficiently. Further, no appointment shall be made until all the copyists (both English and Vernacular) and typists at present entertained earn on an average Rs. 30 a month in the case of ordinary copyists and Rs. 50 a month in the case of typists who provide their own typewriting machines.

$\frac{3A}{3A}$. All persons appointed hereafter as copyists or typists shall be given to understand that that the rate for preparing copies is likely to be raised in the near future, and that their services will not in that case be retained, if their retention reduces the average fees at the new rate below the standards mentioned above.

$\frac{3B}{3B}$. Copyists and typists shall be given to understand that, after they have earned the minimum above stated, their spare time will be at the disposal of the presiding officer of the Court for such unremunerative copying as has frequently to be done in Courts, as, for example, the copying of judgments or orders for appellants in jail, etc.

$\frac{3C}{3C}$. The monthly "detail bill of remuneration to copyists" shows the $\frac{\text{Judge}}{\text{District Magistrate}}$ at a glance, the amount earned by each copyist or typist, and will enable him hereafter to regulate the establishment and to take measures, if necessary, for the reduction of the number of copyists or typists. Once the limit required by Rule $\frac{3}{3}$ has been reached, but not before, the number of copyists should be so reduced as to bring the earnings of each at least up to the prescribed minimum.

Section II.

The arrangement of the record during the trial.

THE TITLE-PAGE.

7. To each file of every record under Class I, II, or III, there shall be prefixed a title-page in Forms Nos. (M) 165 to (M) 168, (*a*) Volume II, pages 222 and 225.

8. To each file of every record under Class IV, there shall be prefixed a title-page in Forms Nos. (M) 169 and (M) 170, Volume II, pages 226 and 227.

9. The title-pages shall be of different colours:—

The colour of the A file being white.
„ „ B „ red.
„ „ C, C1, C2 files being yellow.
„ „ D file in cases decided *ex parte* being blue.
„ „ D file in other cases being green.

THE TABLE OF CONTENTS.

10. Prefixed to every file there shall be a table of contents in Form No. (M) 171 Volume II, page 228.

11. The table of contents (except column 2 thereof) shall be written up at the close of each day as the trial proceeds, and, except as otherwise provided, shall show the papers in the order in which they are filed. Column 1 will give the consecutive number of the different papers in the file, irrespective of the number of pages which they contain. The pages in the file (exhibits excepted) shall be numbered consecutively, and column 2 which should be kept blank until, and filled in after, the file is complete, will give the consecutive numbers of the pages.

If a paper attached to one file is, in accordance with the subsequent rules, transferred to another, a note to this effect will be entered opposite to it in the column of remarks in the table of contents of the former file, and the paper will be entered in the table of the file to which it is transferred, with a new number.

12. Exhibits are not to be shown in the table of contents. The list which is attached to them under the following rules will alone be shown in this table, and will bear serial and sheet numbers.

13. The lists and the documents referred to in them shall not be attached to any file while the trial is proceeding. When the trial is over, the lists shall be numbered with their proper serial and sheet numbers, and shall be affixed to the file to which they belong, being in every case the last papers which are attached to it. The necessary entries in connection with such lists shall then be made in the table of contents.

THE ORDER-SHEET.

14. The Order-sheet in Civil Proceedings shall be in Form No. (M) 164, Volume II, page 221, and shall be written in English.

15. The practice of writing orders on petitions, reports, etc., is strictly prohibited. Such orders shall be written on the Order-sheet which shall be attached to the record of each suit or case.

On every petition, return, or report requiring an order to be made upon it, there shall be entered at the head thereof a note of the serial number (corresponding with the serial number in the Order-sheet) and the date of the order made, and no more; the order and reasons for making it (if any) will, except as provided below, appear only in the Order-sheet.

16. The Order-sheet, being intended to show the course of a suit or case from first to last, shall also contain a note of every order made in the suit or case, and shall show the date of, and the proceedings at, every hearing. It shall show, among other matters, the dates on which the plaint and written statement were filed, issues were recorded or amended, witnesses examined and the names of such witnesses, of the delivery of judgment, of the signing of the decree, and of any application for review of judgment or amendment of the decree. It shall also contain a note of proceedings, such as the reading of the deposition of a witness examined by commission, the reading of a Commissioner's report, and of the fact of any objection being made thereto, and if witnesses are in attendance when a case is adjourned, the fact shall be noted.

NOTE.—*Orders in proceedings referred to in the Note to Rule 4 should be entered in the Order-sheet of the main suit or appeal. A separate Order-sheet should not be prepared.*

17. Orders, the reasons for which require to be recorded at length, shall not be written on the Order-sheet but a note of the order and of the date on which it was made, shall be entered in it.

18. Orders fixing dates or adjourned dates for hearing or directing anything to be done by the parties or their Pleaders, shall be signed then and there by the parties or their pleaders.

19. The Order-sheet may be written by a officer of the Court at the dictation of the presiding Judge, who, however, shall sign and be responsible for the correctness of the entries in it.

THE RECORD.

20. All plaints, written statements, applications, and depositions shall be written on paper of foolscap size, and on one side only.

21. The pleadings, applications, and proceedings in every suit or case shall, as far as possible, be attached to the file to which they belong as the trial proceeds, and shall be arranged in the order in which they are brought before the Court.

22. The depositions of witnesses shall be arranged in the order in which they are given.

DOCUMENTS.

NOTE.—Although these Rules, as they stand, do not apply to proceedings before Commissioners appointed under Part III of the Code of Civil Procedure, it is desirable that Commissioners should be directed by the Courts issuing the commissions, to follow them as far as practicable, and always to submit, along with their reports, lists of the documents produced before, and made use of by, them.

23. All documents produced with the plaint or at the first hearing, shall be accompanied by a list in Form No. (M) 172, Volume II, page 229.

24. When a document, included in the list referred to above, is tendered in evidence, it must, if rejected, be at once endorsed as prescribed by Order XIII, Rule 6, and returned to the person tendering it, who shall give a receipt in column 7 of the list. If admitted in evidence, it shall be detached from the said list, and after being enclosed in accordance with the provisions of Order XIII, Rule 4, shall be annexed to the list referred to in the following rule.

NOTE.—All subordinate Courts should take special care to prevent the unnecessary production in Court of public documents as defined in section 74 of the Evidence Act. When, however, the Collector or other public officer has been summoned under Order VII, Rule 14 or Order XVI, Rule 6 of the Code of Civil Procedure to produce in Courts certain document, it will be his duty to send such document to the Court; but such officer may at the same time, in person or by letter addressed to the Court, object to the production of the document, stating the grounds of such objection, and thereupon it will be the duty of the Court to consider the objection, and to decide, after hearing parties, if necessary, whether it should compel the production of such document.

25. A separate list of the documents admitted in evidence on behalf of each party shall be prepared by the officer in charge of the record in Form No. (M) 173, Volume II,

page 230, and signed by the presiding Judge. The documents shall be entered in these lists in the order in which they are admitted and marked.

26. The Court shall mark the documents which are admitted on behalf of the plaintiff or plaintiffs with figures in the order in which they are admitted, thus—1, 2, 3, etc., and the documents admitted on behalf of the defendant with capital letters, thus—A, B, C, etc.

When there are two or more parties defendants, the documents of the first party defendant may be marked A1, B1, C1, etc., and those of the second A2, B2, C2, etc.

NOTE.—Exhibits must not be defaced in any way by Judicial Officers except in so far as the law permits, that is to say, by marking them as Exhibits filed in a specified course.

27. When a number of documents of the same nature are admitted, as for example, a series of receipts for rent, the whole series should bear one number or capital letter, a small number or small letter being added to distinguish each paper of the series.

28. When an original document after being marked for the purpose of identification, is returned and a copy thereof substituted under the provisions of Order VII, Rule 17 or Order XIII, Rule 5, a note of the return of the original shall be made in the lists referred to in the preceding rules.

NOTE.—When any public document (not being the record of a suit or of a judicial proceeding) or a document in public custody has been produced in Court in compliance with a summons, and the officer from whose custody it has been produced, desires its prompt return, the Court shall, after the document has been inspected or put in evidence, as the case may be, cause it to be returned with the least practicable delay to such officer, after the preparation of such copy as the Court may require under Order XIII, Rule 5 (2) of the Code of Civil Procedure. The expense of preparing such copy shall be borne by the party adducing the particular document as evidence.

29. Documents produced, but not tendered in evidence shall, at the conclusion of the trial, be returned to the person producing them or his Pleader. A Pleader is bound to take back any document produced by his client which the Court, under this rule, orders to be returned, and to sign a receipt for the same in the proper column of the list.

30. To every copy of a decree given to the parties to a suit or case, there shall be annexed a printed notice in Form No. (M) 174, Volume II, page 231, calling upon them to withdraw their exhibits as soon as the decree shall have become final.

31. An interval of four months should ordinarily be allowed to intervene from the date of decree before the documents filed in a case are returned to the parties who produced them, and an application for the return of documents within that period should not be complied with without first giving notice of the same to the pleader of the opposite party. No fee for giving notice in this connection should be levied.

THE DIVISION OF THE RECORD INTO FILES.

32. Every record under CLASS I shall consist of four files, to be styled and marked, respectively, File A, File C1, File C2, File D.

33. *File A* shall contain—

(a) Table of contents.
(b) The order-sheet.
(c) The plaint or application, together with any schedule annexed thereto.
(d) The written statement of the defendant or the counter-petition.
(e) Memorandum of the issues.
(f) Award of arbitrators or petitions of compromise, if given effect to in the decree; also the return or report and the map and field-book (if any) of a Commissioner in matters relating to immoveable property, if referred to or given effect to in the decree, but not any portion of the evidence taken by such Commissioner; also, in the case of Minors or Lunatics, any order of the Court sanctioning a compromise as beneficial to the Minor or Lunatic.
(g) The order (if any) for administration, or for partition, or for accounts or enquiry, with the directions given and the judgment upon which such order is founded.
(h) The judgment.
(i) The final decree, and in mortgage suits the decree or order absolute after decree.
(j) The copy of the judgment and decree of the Appellate Court or Courts (if any).

34. *File C1* shall contain—

(a) Table of contents.
(b) All the evidence, oral and documentary, upon which the subject-matter of the suit is decided.
(c) Lists of documents admitted in evidence.

35. *File C2* shall contain—

(a) Table of contents.
(b) All petitions and papers, including those relating to proceedings incidental to the suit, not specified as included in any other file.

36. *File D* shall contain—

(*b*) All summonses, process, returns thereto, lists of witnesses, petitions relating to the attendance of witnesses or adjournments, *roobakaries* calling for or sending papers or records, and affidavits relating to matters mentioned in this Rule and in Rules 33 to 35 above.

37. Every record under Class II shall consist of one file, to be styled and marked File B, which shall contain all the papers relating to the case.

38. Every record under Class III shall consist of one or two files, according as the presiding Judge shall, in each instance, direct. If there is one file it shall be styled and marked File C; if there are two files they shall be styled and marked respectively File C and File D.

When there is only one file it shall contain all the papers relating to the case. When there are two files, File C shall contain the papers specified as included in Files A, C1, and C2, of Class I. File D shall contain the papers specified as included in File D of Class I.

NOTE.—In deciding whether there shall be one or two files the Judge shall have regard to the nature of the case and the size which the record is likely to attain.

39. Every record under CLASS IV shall, except in the cases specified in the following Rule, consist of one file, to be styled and marked File C, which shall contain all the papers relating to the case.

40. If the application is to execute a decree in a suit included in Class I, and a question is determined as to the construction of the decree, or its effect as regards all or any of the parties thereto, or if possession is given of immoveable property in pursuance of the decree, the record shall, as soon as the application is finally disposed of, be divided into two files, to be styled and marked respectively, File A and File C.

In that case, *File A* shall contain—

	(*a*) Table of contents. (*b*) The order-sheet. (*c*) The application for execution.
When a question as to the construction, effect, or scope of the decree is raised and determined.	(*d*) The petition raising any question as to the construction or effect of the decree, and any counter-petition. (*e*) The judgment of the Court on such question. (*f*) The copy of the judgment of the Appellate Court or Courts (if any).
When possession of immoveale property is given in pursuance of the decree.	(*g*) The Nazir's return of delivery of possession.

File C shall contain all other papers.

41. The record of the Appellate Court shall be arranged in the same way as that of the Court of Original Jurisdiction, except that there shall be no D File, the papers which would belong to the D File being attached to the C File.

The files shall be marked A, B or C, as in the Court of First Instance according to the nature of the suit or case.

NOTE.—The copies of the judgment and decree which accompany a memorandum of appeal should be placed with File C.

42. The distribution of the papers into the proper files must in all cases be made before the record is deposited in the record-room, the object being to avoid the necessity of sorting the papers in the record-room and to enable the record-keeper to know at once, by reference to the letter on the file and without opening any file, what files can be destroyed at any given ime.

Section III.

THE TRANSMISSION OF RECORDS TO THE DISTRICT RECORD-ROOM.

43. The records of decided contested suits and cases of Classes I, II and III, and the records of disposed of cases of Class IV, shall be forwarded to the District Record-room by Judicial Officers at head-quarters in the course of the month, and by Judicial Officers at out-stations in the course of the quarter next succeeding that in which they were decided or disposed of.

44. The records of uncontested suits and cases of Classes I, II and III, and the records of Miscellaneous Non-Judicial Cases, including cases relating to the deposit of rent, etc., shall be forwarded to the District Record-room by Judicial Officers at head-quarters in the course of the quarter, and by Judicial Officers at out-stations in the course of the half-year next succeeding that in which they were decided.

NOTE 1.—A suit for foreclosure should be regarded as finally disposed of when the decree is made under section 86 of the Transfer of Property Act, IV of 1882. The suit, however, continues before the Court in which it was determined until the order absolute is passed; accordingly the record of the suit should be be retained by that Court and not transmitted to the District Record-room until the order absolute has been passed, the proceedings for which should be taken upon the original record. These instructions apply also to suits under sections 88 and 92 of the Act.

NOTE 2.—If no order absolute has been passed, the record should be retained in the Lower Court for three years from the expiry of the period fixed by the Court for the payment of the decretal amount. It should then be transmitted to the District Record-room.

NOTE 3.—The date of disposal of an application to deposit rent shall be deemed to be that on which the deposit has been paid away, or, if it has not been paid, that on which the notice prescribed by clause (2) of section 63 of the Tenancy Act has been served.

45. District Judges shall fix the dates in the course of the month, quarter or half-year on which the records from each Court at Head-quarters and out-stations, respectively, shall be despatched to the district Record-room. They should endeavour so to fix the dates that too many records shall not reach the record-room at one and the same time.

46. Lists in Form No. (M) 70, Volume II, page 92, shall accompany the records. Separate lists shall be prepared for the records of each of the four classes into which suits have been classified. These lists should be uniform in size and shape and will be bound up so as to constitute a catalogue of records in the record-room to be preserved for the same period as the records to which they relate.

47. The cost of carriages shall be met by payment from the District Judge's contingent allowance, and the Judge will give all necessary orders as to the mode of transmission.

48. On the arrival of the records in the district Record-room the Record-keeper shall ascertain that the records correspond with those in the despatch list, that the contents of each file correspond with the table of contents, that the papers bear the Court-fee stamps shown in such table, and that the stamps have been duly cancelled. He shall also cause the stamps to be punched a second time with the punch provided for the purpose.

49. The Record-keeper shall bring to the notice of the Judge any irregularities that may have occurred in connection with the arrangement or punctual despatch of the records in accordance with the order passed under Rule 45 or in regard to the cancellation of the stamps.

Section IV.

THE DESTRUCTION OF RECORDS.

50. The A Files shall be preserved for ever.

The B Files shall be destroyed at the end of 25 years.
The C Files shall be destroyed at the end of 12 years.
The D Files shall be destroyed at the end of 3 years, except when the case has been decided *ex parte*, in which case the D File shall be preserved until 12 years have elapsed from the date of the decree.

51. The above periods shall be calculated as regards suits or cases of Classes I, II and III from the date of the final decree or order.

52. In cases of Class IV, the period shall be reckoned from the date on which the application for execution was finally disposed of by the Court executing the decree or by a Court of Appeal, whichever is the later date. For the purposes of this rule, each execution record shall be dealt with separately, irrespective of any other application to execute the same decree or order.

53. The preservation or destruction of the records of the Appellate Courts will be regulated by the rules laid down above in respect of the records of original suits and cases. The periods referred to in Rule 50 above shall be calculated from the date of the final decree or order of the Appellate Court.

54. The records of Miscellaneous Non-Judicial Cases shall be destroyed at the end of three years from the date on which the cases were disposed of.

55. Exhibits which can be conveniently preserved with the records of the trials they have been used in shall not be destroyed, but shall be preserved until the period for the destruction of the B and C Files, viz., 25 and 12 years, respectively, shall have arrived, when they shall be destroyed along with their files.

56. Cumbrous and bulky exhibits, *e.g.*, account books, khatas, zamindari papers, and the like, which cannot be conveniently put up with the records of the trials in which they have been used, but which have to be prescribed separately, *e.g.*, in almirahs, boxes, and bundles may be destroyed under the orders of the District Judge after the expiry of the period of one year from the date of the decree in each case becoming final, and of the service of the notice referred to below, provided that every endeavour has been made to induce the parties to take them back and a notice has been served on them, warning them that, if they do not take them back within the period of one year, they will be destroyed.

57. The destruction of all papers shall be carried into effect by burning in the presence of the Record-keeper.

PART II.

RECORDS OF COURTS OF SMALL CAUSES.

58. In contested Small Cause Court cases, when the hearing extends for more than one day, order-sheets as in suits tried under the ordinary procedure should be kept. In other Small Cause Court cases no order-sheet is necessary.

59. The record shall consist of only one file, including proceedings in connection with the execution of the decree.

60. The records of suits decided by Judges of Small Cause Courts when presiding in such Courts shall not be forwarded to the District Record-room, but shall be retained in the Court to which they belong until the period for their destruction shall arrive.

61. The records of suits decided by officers vested with the powers of a Small Cause Court Judge shall be deposited in the District Record room at head-quarter stations, and in the Record-room of the Munsifi at outlying Munsifis, until such time as they are destroyed in accordance with the following rule.

62. If there is a decree under which any one is entitled to recover anything, the record shall be destroyed at the end of one year from the date on which the decree has been fully satisfied. If no attempt is made to take out execution, the record should be destroyed after the expiry of three years from the date of the decree. In the case of a decree in which no body is entitled to recover anything, the record shall be destroyed at the end of one year from the date of the decree.

NOTE.—The records of cases in which the decree is for the payment of money in instalments, and in which execution of the decree is taken out, but the decree is not fully satisfied, should be destroyed when no attempt has been made to take out execution for a period of three years from the date on which the last execution application was disposed of.

CHINA, EAST COAST—WUSUNG RIVER.

Astraea (Junk) channel—Beacons and buoys established—Directions.

No. 367 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1328 of 1909), are republished:—

Subject.—Astraea channel southward of Gough island, formerly known as Junk channel, is open *during daylight* to vessels wishing to use it. The undermentioned beacons and buoys have been established, and the directions given below should be followed:—

Position.—High Bar mark, lat. 31° 21½′ N., long. 121° 31¾′ E.

1. Beacon established:

(*a*) *Position.*—Situated at the end of the works at the south-eastern end of Gough island with High Bar mark bearing N. 39° W., distant 18½ cables.

Description.—Pile beacon, surmounted by a ball, painted black.

2. Leading beacons established:

(*a*) Front beacon—

Position.—Situated at the south-eastern end of Gough island, with High Bar mark bearing N. 37° W., distant 14$\frac{4}{10}$ cables.

Description.—Pole beacon, surmounted by a triangle, point upwards, painted black.

(*b*) Rear beacon—

Position.—Situated at a distance of $\frac{9}{10}$ cables, S. 81° E., from front beacon.

Description.—Pole beacon, surmounted by a triangle, point downwards, painted black.

Remarks.—These two beacons in line, S. 81° E., indicate the centre of the Astraea channel.

3. Buoys established:

(*a*) *Position.*—Moored on the southern side of the channel, with Limit beacon bearing S. 24° W., distant 1 1/10 cables.

(*b*) *Position.*—Moored on the southern side of the channel, with Limit beacon bearing N. 73° W., distant 4½ cables.

(*c*) *Position.*—Moored on the southern side of the channel, with Limit beacon bearing N. 77° W., distant 13½ cables.

Description.—The above buoys are conical buoys, painted red, and numbered Nos. 1, 2, and 3, respectively.

4. Directions:

Vessels inward bound should, after having passed the Wusung inner bar signal station, keep 1½ cables from the embankment on the left bank of the river and pass No. 1 buoy, moored off Limit beacon, on the starboard hand and at a distance of half a cable; continuing up river, pass No. 2 buoy on the same hand and at the same distance. When abreast No. 2 buoy, follow up the line of leading marks until abreast No. 3 buoy, where divert from the line and keep about half a cable from the Conservancy works on Gough island until having passed the upper end of such works, which is marked by a pile beacon, surmounted by a ball, painted black.

The difference between the depth of water in the Astraea channel and that on the Wusung inner bar, as indicated by the signals at the inner bar signal station, will be shown at the Wusung lighthouse and from the higher of the two leading marks on Gough island, as under:

Difference, in feet.	Symbols.
1	▼
2	●
3	◆
4	■
5	▲
6	⧗

When the depth of water in the Astraea channel is more than on the Wusung inner bar, symbols as above will be shown on the southern yard-arm, and when less, on the northern yard-arm; if the depth be the same as on the Wusung inner bar, no symbols will be shown.

In order to avoid accidents, vessels intending to pass through the Astraea channel must hoist a black ball at the fore truck when abreast the Wusung lighthouse on vessels inward bound, and when abreast Black point, or as soon as the signals at the Wusung inner bar signal station can be seen, on board vessels outward bound.

Caution.—Mariners are cautioned that they must go dead slow when passing the barges engaged in dropping "sinkstuks" in the Ship channel and when passing any other Conservancy works in course of construction.

When dredgers are at work in the Astraea channel, steam vessels should, when approaching them, sound their whistles and slow down, to give the dredgers time to slacken their moorings.

REPORT ON THE WORKING OF THE LICENSED JUTE WARE-HOUSE AND FIRE-BRIGADE ACT, 1908-09.

NOTIFICATION.

No. 1338M.—The 11th September 1909.—The following is published for general information.

H. WHEELER,
Secy. to the Govt. of Bengal.

No. 48J., dated Calcutta, the 5th July 1909.

From—The Hon'ble Sir Charles Allen, Kt., I.C.S., Chairman of the Corporation of Calcutta,

To—The Secretary to the Government of Bengal, Municipal Department.

I have the honour to submit the following report under section 41 of Act I (B.C.) of 1893 for the year 1908-09.

2. The amount to be realised by fees during the year, as estimated by the Commissioner of Police, was Rs. 35,382, against Rs. 28,266 of the last year. But, as the year opened with a balance of Rs. 12,957, the amount of the fees to be realised under section 10 of the Act was reduced to Rs. 26,082, and the rate was in consequence lowered from 6½ to 5½ per cent. on the annual valuation of warehouses.

3. The work of assessment under the Act was done, as heretofore, by the general assessing staff of the License Department.

4. During the year, 108 new licenses were sanctioned and 13 refused, the corresponding figures for 1907-08 being 132 sanctioned and 18 refused.

The following statement gives the result of applications for licenses:—

The 5th July 1909.

No. 660M.—2-1—30, dated Chinsura, the 3rd July 1909.

From—The Commissioner of the Burdwan Division,

To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit herewith a copy of the Annual Report on the working of the Licensed Warehouse and Fire-Brigade Act in the Howrah Municipality during the year 1908-09, submitted by the Chairman of the Municipality.

2. There was an increase during the year in the number of licensed warehouses from 309 to 328 and also in the income from license fees from Rs. 6,977 to Rs. 7,248.

No. 544, dated Howrah, the 21st June 1909.

From—H. T. S. FORREST, Esq., I.C.S., Chairman of the Howrah Municipality,

To—The Magistrate of Howrah.

I HAVE the honour to report that 328 warehouses were licensed in 1908-09 out of 361 registered during the year, against 309 out of 347 registered in 1907-08; the details are as follows:—

YEARS.		Jute.	Cotton.	Hay.	Straw.	Wood.	Resin.	Waste paper.	Varnish.	Total.
Registered	1907-08 ...	43	41	1	33	223	1	3	2	347
	1908-09 ...	41	40	1	34	240	2	1	2	361
Licensed	1907-08 ...	38	28	1	29	209	1	1	2	309
	1908-09 ...	31	28	1	33	230	2	1	2	328

2. The income from license-fees during the year under report amounted to Rs. 7,247-12, of which Rs. 40-2-6 were collected on account of arrears on account of the year 1907-08, but realised in 1908-09.

3. The demand, collection, remission and balance for 1908-09 are shewn in Appendix A, and the details of licenses granted in this year to jute and cotton warehouses are entered in Appendix B. Owing to the comparative unimportance of the 269 licenses granted for the storage of straw, wood, hay, resin, waste paper and varnish in 1908-09, against 243 in the previous year, they have not been entered in Appendix B, and it may be noted that such license-fees have only been levied under the Fire-Brigade Act since July 1893, prior to which they were levied under section 261 of the Bengal Municipal Act.

4. There were 44 prosecutions in the year under review, which realized Rs. 117-8 against 60 in the previous year, which produced Rs. 164.

5. The expenditure incurred in assessing and collecting license-fees amounted to Rs. 868, as detailed below:—

		Rs.
Salary of General Supervisor and Assessor	...	600
Ditto Inspector	... ...	130
Commission of Inspector	... ...	24
Salary of clerk	... ...	63
Ditto peon	... ...	51
Contingencies ...	... ...	...
Total	...	868

6. The Fire-Brigade establishment continued under the control of the Commissioner of Police, Calcutta. The Fire-Brigade station in Howrah stands in a very central position north of the Municipal market, and from a wooden stage raised over it the whole town is overlooked. There were seven fires during the year, the details of which are given in Appendix C. Besides these there were nine other petty fires: the Fire-Brigade turned out to all of these fires and extinguished them. The seven large fires above mentioned were all extinguished by the Fire-Brigade.

8. The Commissioner of Police demanded Rs. 11,120 for the maintenance of Fire-Brigade in 1908-09, and this amount was remitted by him during the year.

The proceeds derived from hire of fire-engines, however, were greater than the estimate by Rs. 7,453, the net result being an actual increase in receipts over the estimate by Rs. 6,876.

EXPENDITURE.

(*a*) Under the head "Establishment" there was a decrease of Rs. 1,067-4-3 as compared with the estimate, due to ordinary leave vacancies.

(*b*) The net decrease as compared with the estimate under head "Contingencies" is Rs. 12,273-11-6. This was due to the fact that the pair-horse turn-table fire ladder sanctioned by Government and ordered from England last year was not delivered during the year under review, and could not therefore be paid for.

A quantity of canvas delivery hose ordered last year was found on receipt to be of incorrect size, and had to be returned. Payment for this was, therefore, also not made during the year 1908-09.

(*c*) Under the head "Other charges" there was a decrease of Rs. 741-8, mainly under the head of "Smaller payments for water pressure," due to the fact that the majority of the large fires occurred outside the area served by the Corporation unfiltered water-supply.

4. One hundred and seventy fires of all degrees occurred during the year 1908-09.

Thirty-six serious fires in Town, River and Docks, 39 in the Suburbs and 7 in Howrah, and further two fires at which the Fire Brigade attended, outside the jurisdiction, in the Baranagore North Jute Mill (24-Parganas) and the National Jute Mill, Rajganj (Howrah district).

There were also 86 petty fires—36 in the Town, on the River and in the Docks, 41 in the Suburbs, and 9 in Howrah.

Twenty-two of the total number of fires occurred in buildings licensed under the Licensed Warehouse and Fire Brigade Act I of 1893.

The total estimated value of the property destroyed by fire was Rs. 20,76,151-2-6 against Rs. 12,15,521-13-6 in 1907-08 and Rs. 20,74,993-6 in 1906-07.

Fires outside the jurisdiction of the Fire Brigade.

2nd December 1908.—A large fire occurred at the Barnagore North Jute Mill, 2 miles beyond the jurisdiction, in which buildings containing jute and machinery to the value of Rs. 50,000 were destroyed. The property was insured.

16th February 1909.—A serious fire occurred at the National Jute Mill, Rajganj, Howrah district, 7 miles beyond jurisdiction, in which two buildings containing jute were destroyed. The value of property destroyed was Rs. 9,25,000, the majority of which was insured. The inadvisability of partly utilising buildings used for the storage of jute, as quarters for European assistants was exemplified on this occasion, where, had the fire broken out at night, loss of life might have occurred. The practice is forbidden within the jurisdiction covered by Act I of 1893 under section 20.

The most serious fires were as follows :—

(1) *29th April.*—At the Union Jute Press, Chitpur, two large double-storied godowns containing jute and wool, Rs. 2,00,000. Fire lasted 26 hours.

(2) *8th May.*—At the Central Jute Mills, Howrah, two large corrugated iron godowns containing jute, Rs. 3,00,000. Fire lasted 171 hours.

(3) *9th May.*—At Hooghly Hydraulic Jute Press, Chitpur, a double-storied godown containing jute, Rs. 1,50,000. Fire lasted 22¾ hours.

(4) *14th May.*—At Chitpur Hydraulic Jute Press, Chitpur, a two-storied building containing jute, Rs. 50,000. Fire lasted 8 hours and 5 minutes.

(5) *15th May.*—At Ashcroft Jute Press, Chitpur, a double-storied godown containing jute, gunny and machinery, Rs. 2,50,000. Fire lasted 41 hours 25 minutes.

(6) *17th May.*—At Ganges Jute Press, Chitpur, a double-storied godown containing jute, Rs. 1,50,000. Fire lasted 32 hours 20 minutes.

(7) *20th May.*—At Clive Jute Mill, Garden Reach, a "peel" of jute and the cooly lines attached to mill, Rs. 1,90,000. Fire lasted 56 hours.

The fire originated in the cooly lines which are outside the Calcutta Fire Brigade jurisdiction. It spread from there to the stack of jute in the mill compound.

(8) *18th September.*—At 242-1, Upper Circular Road, a four-storied building containing flour and machinery, Rs. 1,20,000. Fire lasted 5 hours and 30 minutes.

(9) *4th November.*—At 43, Canal East Road, a corrugated iron godown containing seeds of kinds, Rs. 1,00,000. Fire lasted 6 hours and 45 minutes.

(10) *23rd November.*—Munshi Saderuddins Lane, a portion of a two storied building, containing muslins, clothes, chudders, etc., Rs. 50,500. Fire lasted 3 hours and 15 minutes.

(11) *26th November.*—26, Kangraputty Street, Burra Bazar, a two storied building, containing cotton and woollen goods, Rs. 89,000. Fire lasted 2 hours and 30 minutes.

(12) *30th November.*—At Strand Bank Jute Press, Chitpur, two godowns containing jute, Rs. 1,30,000. Fire lasted 15 hours and 45 minutes.

(13) *12th December.*—At 8, Noyan Sur's Lane, a godown containing jute, Rs. 16,500. Fire lasted 15 hours and 15 minutes.

(14) *4th January.*—At Soorah Jute Mill, Belliaghatta, a godown containing jute and machinery, Rs. 17,500. Fire lasted 4 hours.

5. *Repairs.*—During the year under review no important repair work to the engines has been necessary. All petty repairs were done by the Fire Brigade staff.

6. Two turn-outs consisting of two fire-engines, two hose-carts, two brakes, ten horses and all necessary hose and gear are always kept in readiness at head-quarters in case of a call.

7. *Payments by Municipalities.*—In the year under report the percentages fixed by Government as payable by the several Municipalities concerned were as follows:—

9. *Prosecutions.*—Three licenses were granted under section 36, Act I of 1893, for letting off fireworks, rockets, etc. None of them were suspended under section 37 of the Act during the year. Five persons were prosecuted, all of whom were convicted and fined for letting off fireworks under section 66, Act IV of 1866.

Eight licenses for the sale of fireworks were cancelled during the year.

10. *Water-supply.*—The water used by the Brigade is obtained from the street mains, wherever the unfiltered water-supply has been extended. It is, however, necessary, as soon as the Brigade leaves the station, for the Pumping Station to be rung up on the telephone and a request made to put on pressure.

Where there are no street mains available, water is obtained from any tank, and, in some cases, when the tide allows, from the river Hooghly direct.

In Howrah the supply of water from tanks is very scanty and is getting less and less every year, there is no other source of supply except from the river Hooghly.

Howrah, Chitpur, Garden Reach, and a portion of the added area are not supplied with unfiltered water. Mains, however, are being laid down in the added area.

The East Indian Railway goods sheds have a supply of water of their own for the protection of their goods sheds. They also keep two manual engines and a supply of hose and a staff of men to work their appliances. All their hose is now fitted with instantaneous couplings.

11. *Telephones and Fire alarms.*—At the head-quarters, Lal Bazar, there is a telephone exchange with 58 connections (and space for 42 more) to all police-stations.

Communication can also be obtained through the Head Telephone Office and Government Telegraph Office with any subscriber on the General Telephone Exchange.

The direct communication from head-quarters is principally with thanas and Pumping Stations and also to the Port Commissioner's Fire-Float stationed off Fort Point.

The East Indian Railway goods sheds are in direct telephonic communication with Howrah Fire station and also have a Fire alarm (the only one in Calcutta) at the Howrah Fire Station. Besides the telephone for the purpose of reporting fires, there are look-outs at all Fire Stations where steam or manual engines are kept.

At head-quarters and Howrah, Tell-tale clocks have been introduced on the Look-out Towers and have proved a useful check.

The Port Commissioners have called for tenders for the supply of hose and fire appliances (including instantaneous couplings) for the whole of the Docks and the Fire floats.

12. *New Fire Appliances.*—The 65-foot combined Water-Tower and Fire Escape ordered last year is expected to reach Calcutta shortly. Although the majority of buildings in Calcutta are so built that escape from them on the outbreak of a fire is easy, still a large number of very tall structures are being put up in Calcutta, for instance, Chowringhee Mansions, Bengal Club and the Chartered Bank in Clive Street, where an escape might be necessary.

Water-Tower and Escape.

But the principal use to which it is intended to put this Water-Tower will be at large Jute and Cotton fires when the walls are in an unsafe condition and it is not possible to pump water direct on to the fire from them.

By means of the Tower, a stream of water can be driven right into the heart of the flames.

13. *Calls.*—Calls to the number of 170 were recorded during the year, being an increase of 22 over the previous year. The above figures include 16 River and mill fires attended by the Brigade assisted by the Port Commissioners' Fire Floats. The distance travelled to and from fires by the Brigade was 211 miles. Eighty-two fires were attended by the Brigade during the year. The average distance travelled per fire was 2·57 miles. One horse died during the year.

14. *Fatalities.*—From the 1st of April 1908 to the 31st of March 1909, 13 fatalities occurred at fires:—

(1) On the 16th April, a blind old woman, named Nizaban Bibi, aged about 50 years, was burnt to death in her *goleputta* hut.

(2) On the 9th October, an old man, named Ram Lal Sakina, aged about 60 years, was burnt to death on Strand Road whilst endeavouring to rescue some of his property from the interior of the house.

(3) At Lukshmi Narain Chukerbutty's Lane, Howrah, an old woman, named Gonesh Bewa, aged about 65 years, was burnt to death while trying to rescue her cow from a burning hut.

(4) On the 28th February 1909, at Bola Ram Mozumdar's Street, 23 persons suffering from, more or less, serious burns received at a fire in a *hogla* shed erected for Puja purposes, were removed to the hospital: seven of them succumbed subsequently to the injuries received.

(5) At Rustomjee Parsee Bazar, Belliaghatta, two Muhammadans, named Shaik Bhakoo and Shaik Reazuddin, respectively, were burnt to death. The former received severe burns whilst escaping from his room through the flames. He was removed to hospital, where he died soon after admission. The body of latter was found among the burnt jute the morning after the fire.

15. *Accidents to fireman.*—One European fireman was injured at a fire at the Union Press on the 29th April 1908 by a falling cornice. He was removed to hospital and detained ten days.

At the Rajganj fire on the 20th February 1909 a khalasi was burnt by falling between two burning bales of jute. He was removed to hospital and detained 31 days.

16. *Miscellaneous.*—There is a forge attached to the Brigade which does most useful work, not only in shoeing the horses, but in making up a great deal of iron work.

17. Chief Engineer J. Holmes was granted combined leave for 23 months on 30th August 1907. His leave will expire on the 30th July, when he will retire.

The Brigade suffered a severe loss during the year by the death of the acting Chief Engineer, Mr. J. G. Fulthorpe, on the 21st February 1909, from small-pox. This officer had done much during the brief period he had been in charge to increase the efficiency and utility of the Brigade.

18. The desirability of purchasing a motor fire engine for Calcutta has been engaging the serious attention of the Corporation. The utility of such a fire engine in an oriental city, where climatic conditions tell heavily against horse traction, is self-evident.

Financial reasons alone have, up to now, militated against the addition of a motor fire engine to the Calcutta Fire Brigade. It is hoped, however, that these may be overcome.

This force is augmented by a permanent stand-by of 12 European Police Sergeants in two shifts.
These men are paid Rs. 5 per each fire they attend.
Hose reels with 350 feet of hose and necessary gear are posted at Fenwick Bazar, Taltolla, Sukea Street Jorabagan, Kumartoli, Burtola, Ballyganj, Muchipara and Alipur thanas. These reels are used by local police in case of fire, but can only work during the hours when water pressure is on, the supply being interrupted.

No. 390, dated Calcutta, the 4th May 1909.

From—BABU N. N. SINHA, Vice-Chairman, Maniktala Municipality,
To—The Magistrate of the 24-Parganas.

WITH reference to your letter No. M $\frac{176}{1}$ of 1909-10, dated the 26th May 1909, calling for a report on the working of the Licensed Jute Ware-houses and Fire-Brigade Act in this Municipality for the year 1908-09, I have the honour to report that the share of expenditure allotted to this Municipality by the Commissioner of Police was Rs. 1,516, which was discharged by two instalments.

2. The revenue during the year under review amounted to Rs. 2,501-4-3.

3. The annexed statement will show the number of warehouses and licenses issued during the year under review.

4. License fees were levied on jute warehouses at 4 and 6 per cent. on the annual value and at 10 per cent. on trades of other descriptions mentioned in the statement, and the fees were duly paid.

5. The jute godowns, firewood, packing case, hay and straw depôts are mostly situated near the Circular Canal which forms the northern, western and southern boundaries of this Municipality. Soorah Jute Mill and Messrs. W. M. Briggs & Co's. jute mill are the two mills within this Municipality situated in the north of Narikeldanga Main Road.

6. The decrease of revenue during the year 1908-09 is due to the abolition of almost all the jute godowns situated at Canal Circular Road and some in the Canal East Road.

Copies of the Rules and Regulations relating to the Exhibition and of a synopsis of classification of exhibits are attached.

The Committee feel that an undertaking of this nature can only succeed with the active co-operation of all sections of the people, and they hope that all will join hands to make the Exhibition a success and in every way worthy of the Punjab and its Capital. The Committee confidently appeal to the Princes, noblemen and gentlemen of the Province, to the District and Tahsil authorities, to the District and Municipal Boards and to public Associations of all kinds—Anjumans, Sabhas and Samajes, and all who have the interests of the country at heart and are willing to assist in the development of its material resources for assistance and co-operation in bringing their labours to a happy and successful issue.

Assistance can be rendered to the objects of the Exhibition, among others, in the following ways :—*First*, by actually furnishing articles for exhibition either on loan or for sale ; *second*, by subscriptions towards the funds of the Exhibition for specific purposes or to meet general expenses ; *third*, by giving inducement and encouragement to skilful craftsmen on appropriate conditions in order to enable them to prepare objects for exhibition or by giving prizes ; *fourth*, by display of general interest in the objects of the Exhibition by spreading information, by encouraging clever but obscure or diffident workmen, and generally by co-operating in every possible way with the efforts made by the General and the Executive Committees. The Committee cannot imagine a single patriotic Indian who takes an intelligent interest in the welfare of the country who cannot further the objects of the Exhibition in some way or other.

All communications should be addressed to the General Secretary, Industrial and Agricultural Exhibition of the Punjab, N.-W. F. Province and Kashmir, Bharat Buildings, Lahore.

COMPLETE LISTS OF PATRONS, VICE-PATRONS, PRESIDENTS, VICE-PRESIDENTS, THE GENERAL AND THE EXECUTIVE COMMITTEES, SECRETARIES, etc., WILL BE GIVEN IN THE NEXT EDITION.

11. The Exhibition Authorities will have absolute discretion as regards the acceptance or rejection of Exhibits and the allotment of space, covered or uncovered.

12. Exhibits will be received, from the 1st of October 1909 to the 15th of November 1909. 14. Exhibitors failing to send their goods and occupy the space allotted to them by the 15th of November 1909 shall forfeit all right to exhibit, and shall not receive any refund of the payments made by them. No refund also will be given for occupying less space than that applied and paid for and allotted; and the unoccupied space will be disposed of as the Exhibition Authorities deem fit.

15. Every reasonable facility will be afforded to the Exhibitors or their agents in connection with the transport, display, sale and care of their Exhibits.

16. Exhibitors must bear all expenses incidental to the transport and the delivery of their Exhibits, as well as their removal after the Exhibition is closed. If the Exhibitors require for the display of their Exhibits in the grounds any *special* arrangement or structure, stands, cases, tables, shelves, etc., or have to mount their machinery and apparatus, they must carry out all these themselves, and at their own cost, and in accordance with the plans approved by the Exhibition authorities.

17. Exhibitors and such assistants, servants, or other attendants as Exhibitors may require for service at their stalls may be allowed to enter the Exhibition grounds on obtaining a pass from the Exhibition Authorities. All valuable Exhibits, such as jewelry, gold and silver plate, must be forwarded under the charge of an attendant.

19. Every Exhibit must bear a label showing the name or description of the article, its price, the place and the date of its production or manufacture, the names of the manufacturer and the Exhibitor, and if purchased, the place and the date of its purchase.

20. In the Exhibition stalls orders for articles may be registered, but no Exhibit will be removed till the Exhibition is finally closed. Facilities will, however, be afforded to the Exhibitors to keep stocks of their articles for ready sale.

21. Exhibitors who are unable to attend personally or send agents in charge of their Exhibits may make special arrangements with the authorities for the exhibition of their goods, subject to the provisions of the foregoing rules, and on payment, in advance, of all estimated expenses, which may be ascertained on application.

22. The Exhibition Authorities reserve to themselves the right to remove the Exhibits of any person from the Exhibition grounds who does not conform to the rules and regulations laid down by them.

23. No article exhibited may be copied, photographed, drawn, or reproduced in any manner without the special permission of the Exhibitor and the Exhibition Authorities. General photographs of the stalls may, however, be taken with the permission of the Exhibition Authorities.

No. 100G.M., dated the 10th June 1909.

From—H. M. PEAT, Esq., Chairman, Garden Reach Municipality,
To—The Magistrate of the 24-Parganas.

WITH reference to your No. 17G/1 M. of 1909-10, dated the 26th ultimo, I have the honour to submit the following report on the working of the Licensed Jute Warehouse and Fire-Brigade Act in the Municipality for the year 1908-09.

2. During the year under review the receipts from jute warehouse fees were Rs. 1,267. A sum of Rs. 92-4 was also realized under section 25 (*b*) of the Fire-Brigade Act in respect of the Kapidanga, the Batical and the Kasaipara *bustees*. The total revenue, therefore, was Rs. 1,359-4. The share of expenditure allotted to this Municipality by the Commissioner of Police which was discharged by two instalments was Rs 2,528. There was thus a deficit of Rs. 1,168-12, which was met from the general funds of the Municipality. In levying the jute warehouse fees the limitations prescribed by the provisos to section 10 of the Fire-Brigade Act were strictly observed. The rates at which the fees were levied were 2½ per cent. on the annual valuation of all large warehouses, Rs. 5 per cottah on all straw and wood depôts and Re. 1-2 on the annual value of *bustee* lands.

3. During the year of report two fires of a serious nature broke out in two of the *bustees* and properties worth about Rs. 25,000 were destroyed.

4. A list of warehouses to which licenses were granted during the year is submitted below:—

PROSPECTUS OF THE INDUSTRIAL AND AGRICULTURAL EXHIBITION OF THE PUNJAB, NORTH-WEST FRONTIER PROVINCE AND KASHMIR, 1909.

NOTIFICATION.

No. 3780.—The 21st September 1909.—The following is published for general information.

Secy. to the Govt. of Bengal.

SUBJECT TO AMENDMENT.

PROSPECTUS.

THE INDUSTRIAL AND AGRICULTURAL EXHIBITION OF THE PUNJAB, NORTH-WEST FRONTIER PROVINCE AND KASHMIR, 1909.

THE Indian Industrial and Agricultural Exhibition will be held this year at Lahore in the month of November.

The Indian Industrial Exhibitions held since 1901 have served greatly to popularise and encourage the Indian arts and industries, and their usefulness has been recognised by all sections of the Press and the public.

The first of these Exhibitions was organised and held at Calcutta in December 1901, and similar Exhibitions have since then been held at Ahmedabad in 1902, at Madras in 1903, at Bombay in 1904, at Benares in 1905, at Calcutta in 1906, and at Nagpur in 1907-08.

The management and organisation of the Exhibition have, since its inception, been entrusted to Committees fully representative of all sections of the public. The same practice has been followed in the Punjab, and a Committee, which is fully representative of all classes (officials as well as non-officials)—Europeans, Hindus, Sikhs and Muhammadans—has been appointed. An Executive Committee has also been formed to carry out, under the general supervision of the General Committee, the various arrangements connected with the Exhibition. Both these Committees have power to add to their number. The Executive Committee has appointed Sub-Committees to look after the several branches into which the work connected with the Exhibition has been divided.

The Government of the Punjab, fully recognising the industrial and educational value of such Exhibitions, has very kindly agreed not only to give special facilities for the exhibition of all such articles by its Agricultural, Art, Forest, Sanitary and other Departments as may prove useful or instructive to the public, but also to help in several other ways the organisation of the Exhibition. His Honour Sir Louis Dane, whose keen solicitude to promote the industrial and agricultural development of the country is well known, and who as Resident in Kashmir substantially furthered the development of the material resources of that State, has been pleased to become a Patron of the Exhibition. The Hon'ble Sir George Roos-Keppel has also been pleased to become a Patron, and has extended the help and co-operation of his Administration to the scheme.

The last Exhibition held in the Punjab was in 1893. It was, however, confined to the products of industrial arts and manufactures belonging to the Punjab, and did not include agriculture and agricultural machinery. Of the Exhibition now to be held, the Agricultural section is intended to form one of the most prominent branches. The agricultural possibilities of this Province are immense, and during the past five years the Government Department of Agriculture has done a good deal to improve agriculture on scientific lines, by making available a considerable amount of instructive and useful information regarding seeds, the diseases of crops, various kinds of manures, and the use of modern implements and machinery for economising labour and increasing production. In the development of commerce and industry, Punjab has advanced with rapid strides during the past 18 years. The Capital invested in industrial, banking and other commercial concerns that have come into existence in the Punjab during this period amounts to several crores of rupees.

Although the scope of the Exhibition is confined largely to articles of indigenous growth and manufacture, arrangements are being made for the exhibition of machinery and appliances of foreign manufacture which are likely to help and develop Indian industries.

Facilities will be afforded to the exhibitors to keep stocks of their exhibits for ready sale.

(5) The hours during which a machine is to be worked must be previously arranged for with the Exhibition Authorities.

(6) In spite of what is contained in the above rules, the Exhibition Authorities will have the right to regulate all arrangements in connection with machinery in motion.

25. A separate section will be allotted for the display of work done by ladies.

26. The Exhibition will be opened in the last week in November 1909 for the public, and will remain open for about two months. An official catalogue of all Exhibits with the names and addresses of the Exhibitors and their Agent or Agents, if any, will be published by the Exhibition Committee, before the opening of the Exhibition. A Committee of specially qualified gentlemen will be appointed as Jurors, who will examine the Exhibits, determine their relative merits and decide which of them deserve special recognition. The decision of the Jurors will be final. Gold, Silver and Bronze medals will be awarded according to their verdict. Certificates of Merit will also be given. The names of the successful Exhibitors will be published together with a description of the Exhibits and the medals and certificates they shall have respectively obtained.

27. Advertisements will be received for publication in the Official Hand-Book at the following rates, viz., full page Rs. 20, half page Rs. 12, and quarter page Rs. 7. Applications for these advertisements will be received not later than 1st October 1909, and must be accompanied by a remittance in full payment of the amount due for space applied for. Special rates will be fixed for advertisements on the cover.

28. All persons who become Exhibitors shall, by so doing, be held to signify their assent to, and acceptance of, all the foregoing Rules and Regulations, and also such other Regulations as the Exhibition Authorities may hereafter issue.

GENERAL SUMMARY.—The rainfall during the week under review was general. It was heavy in Cooch Bihar, Khulna, Sambalpur and in parts of Burdwan, Midnapore, Howrah, Purnea, Balasore and Ranchi; moderate in Patna, Gaya and Bhagalpur, and light elsewhere. The recent rain has been beneficial for upland *aman* paddy in Darbhanga and Purnea. More rain is, however, wanted in parts of Bhagalpur and Angul. Harvesting of the autumn crops is approaching completion. Steeping and washing of jute continue. Reports of good prospects have been received of the *aman* paddy and sugarcane crops. Sugarcane has been damaged somewhat by excessive rain in Shahabad. The price of common rice has risen in the 24-Parganas, Patna, Champaran, Bhagalpur, Purnea and Hazaribagh, and has fallen in Burdwan, Birbhum, Bankura, Nadia Jessore, Shahabad, Saran, Muzaffarpur, Darbhanga, the Sonthal Parganas, Balasore, Ranchi and Manbhum. The price of maize has fallen in some districts due to a good harvest. Cattle-disease is reported from Burdwan, Midnapore, Nadia, Jessore, Khulna, Patna, Gaya, Champaran, Muzaffarpur, Monghyr, Bhagalpur, Purnea, the Sonthal Parganas, Angul, Sambalpur, Hazaribagh and Palamau.
